ISBN-13: 978-1585980642

Product Dimensions: 0.8 x 5.5 x 8.5 inches

Shipping Weight: 10.4 ounces

Average Customer Review: 3.3 out of 5 stars 10 customer reviews

Best Sellers Rank: #265,737 in Books (See Top 100 in Books) #6 in [Books > Crafts, Hobbies & Home > Antiques & Collectibles > Dolls, Toys & Figurines > Teddy Bears](#) #106 in [Books > Crafts, Hobbies & Home > Antiques & Collectibles > Antiques Care & Reference > Reference](#) #285 in [Books > Reference > Encyclopedias & Subject Guides > Antiques & Collectibles](#)

Customer Reviews

The book was listed as new and you open up the cover page and someone's name was on it and someone had gone through book on wrote on it. I contacted seller and she apologized and refunded my money. I would've loved one that was actually brand new as description stated and not been lied to. I was reading seller's reviews and she sent used ones to others also claiming they were new. I threw the book away.

this book was ok. i needed a newer version.

so fun to have this catalogue , its very complete and has pictures

With each page having a space to put your bought price and market value (some filled in) this book makes it easy to organise the value of your collection. It includes Ty Buddies, the Mc Donald's

teenie beanie kids and of course, beanie babies. Being the most recent, it includes the new zodiac babies. Each page has colourful photos of the toy, the poem in its tag, its release date, retirement date and birthdate. But wait there's more!! Found at the back are sport's promotion beanies, spotting counterfeits, tag generations and a list of beanies by their birthdays. Thank goodness it's got a good index.....

The good folks editing the reviews here at have told me in no uncertain terms that my reviews should focus SOLELY on the product itself. Comments on merchandising are entirely unwelcome, at least according to some editors here. In reference to my comments on a similar product I've been told "Your review of the Collector's Value Guide has been removed from our database, as it is not a critique of the book in question. It is not clear from reading the review that you have read the book you commented on." How one comments on the quality of a "book" like the Ty Beanie Babies Winter 2001 Collector's Value Guide, which is almost exclusively about merchandise and exists solely because of marketing, without commenting on merchandising of the products I don't quite know. (To prove I've actually "read the book", hopefully I'll be allowed to tell you that the products considered in this tome are small stuffed animal [some imaginary] toys with heart-shaped paper tags on their ears known as "Beanie Babies". I'm not at all sure that I'll be allowed to discuss these legume-namesaked infants further, though.) But I'll give it a try: Having read the Ty Beanie Babies Winter 2001 Collector's Value Guide, by an anonymous author, I can say that I was extremely disappointed. True, there were lots of good pictures, and tons of characters, but character development was extremely limited. The plot was completely incomprehensible to me. Whoever this mystery author is, he or she is far more obscure than James Joyce ever was! Talk about sound and fury signifying nothing! I can't help but think that another author would have done so much better with this material. Now, I don't want to give away the ending or too many "plot twists", but I was disappointed to find that as soon as the reader gets interested in a particular character, that

character disappears ominously (or in Beanie Baby parlance, "is retired"). I'm not at all sure that younger children should be exposed to such a frightening prospect. Older children may be able to get past these concerns to see the essential theme of the book in a positive light as the continual renewal of life. But frankly, I'd give this book a miss.

I do not really use this as a price guide, because let's face it, most of the common Beanies are only worth as little as 3.00. But it is a good color picture guide, and you can use it for knowing what's out there. There were so many 2001 releases, I couldn't keep track of them online. So at least I can go through the book and mark which ones I have, and which ones I want. I want to get all the cats, at least!!

a-ok
