## Customer Reviews

I was intrigued with the name of this book Hygge, Now I know its An Introduction to the Danish Art of Cozy Living to start learning the secrets of how we can start to live a life that is primarily filled with joy, pleasure, and a sense of safety for us people living in this world.

One of the best book i have found to bring the hygee in my house, this book will help you to redecorate your life with hygee style from living room to kitchen room. You can feel the change from your first day. Amy white also included a great introduction that will help you to understand the hygee life of denish people to adjust you more in it. You would love this book.

This book was a good reminder for living a simple, minimal, and cozy lifestyle. the Danish concept of Hygge teaches us that life most precious gifts are free and with all the negative going on in the world this was a nice escape to a happier place. I'd recommend this book to anyone wanting to understand and start hygge.

If words like comfy, cozy, companionship, and kindness appeal to you this book will help you learn how to have more of all of those in your life.

A nice summary of basic principles to lead a cosier and less strained life, leaving space to be creative in one's own circumstances.

Not very good. Information is repetitive, and not really new. Many of the suggestions are not good, such as "Rent a dog for the day" - is that actually a thing that people do? And then there is the

suggestion to hold a sweater swap, but only after "ensuring" your friends that you will wash all of the sweaters before the swap. The misused words and typographical errors in the book are distracting. There wasn't any new information that couldn't be gleaned from a quick internet search for the word "hygge", and the book was poorly written. It reads like a weekend project. Two stars for being free.

Awesome! If you are interested in the concept of "hygge" you will love this book! It's an easy read, very informative, includes happiness data and research, and provides ideas for incorporating more hygge into your life. This is really worth reading and recommending!

This is an amazing book with amazing tips. As we all know that it is about a special lifestyle. The best advice here is to take your timer, and find pleasure in the act of changing your lifestyle tactics. I highly recommend this book. By the way, I have enjoyed this book.
