## Customer Reviews

Super helpful for my trip to Japan. So small that it hardly takes up any space in my bag (about the size of my size small hands). It teaches you just the right amount of phrases so that you don't look like a total noob in Japan. Everyone I spoke to on my trip loved that I took the effort to learn some Japanese. Knowing a little Japanese goes a long way!

I have 3 years of Japanese language experience, so I only ended up using this once. That said, this book is well organized and will be very helpful for beginners!

I used this little book several times when I was traveling in Japan in March. In fact, I even got an ear infection and was able to navigate my way through the healthcare system, even with an antibiotic allergy! The pronunciation section is helpful and the key phrases right inside the cover were great too. I've always found Lonely Planet to be helpful, and this travel dictionary was great!

Just returned from an 8-day excursion in Japan. This book is the perfect size and full of the most useful phrases. This book saved my butt a couple times.

Small and portable. I speak some Japanese so I didn't use it very much over there, but it was a

comfort to know I had it. I would recommend to anyone with no prior Japanese language. Learn some key phrases and keep the book on hand as needed!

Very handy. We went to Japan and I learned as I went. Key phrases like "I want a beer" and "Where is the bathroom" are included.

Wonderful

Simple easy to follow. Prepping for a trip in the spring.
