Customer Reviews

I love this book! I wished I purchased it at the beginning of Nursing School. The rationales are great, so easy to comprehend. I definitely recommend this book!

The quality of the book was excellent! Hardly any writing in it at all. But the book itself is written in first person so it's extremely hard to follow and retain information. It's not like a normal textbook, so be careful.

Had to have it for a class but it's the worst. Written in 1st person & full of opinions

The book met expectations. Used it for class and it was decent. It's written in first person, so that

took an adjustment.

Love the option to rent this book! Great condition and returning it was so simple!

Thank you for exelent job!

Didn't met my expectations

Fast shipping, as expected.
