Wonders Of Nature (Little Golden Book)

Synopsis

Note: This phenomenon of the paper extending beyond the boards is unique to this style of book. "Isn't it a wonder that out in the pond, smooth wiggly tadpoles lose their tails and grow legs, and turn into frogs? And that fuzzy caterpillars weave silken cocoons around themselves and go to sleep, then wake up as pretty moths or butterflies?" It's a rare nonfiction book that's also a simple, beautiful poem. In this gorgeous Little Golden Book from 1957, Eloise Wilkin's stunning and realistic artwork is accompanied by gentle text that brings an awe of nature to the youngest readers.

Age Range: 3 - 7 years

Grade Level: Preschool - 2

Customer Reviews

This was a classic I had as a child. Purchased for my grandchild. Love this book!

Precious story, lovely pictures, a great story to share with a toddler about the wonders of nature!

Given to a friend's child. Good work

great product, great service

A classical charming book!

I love these Golden Books and this one was adorable. The illustrations are all very beautiful. I had two or three of these books as a child. One was "We Help Mommy" and another was "We Help Daddy." I loved them as a child and still enjoy reading them to my niece now and still enjoy them!

I like the content of this book, but the quality leaves a lot to be desired. The pages are not flat, they have ripples as if it has been wet and dried. Cannot hardly keep pages open enough to look at and read. Dissatisfied in this as a new product.

Obviously these little golden books classics speak for themselves... The same stories my parents read to me, same great illustrations... I bought several of these books to tear the pages out and make a bunting for a book-themed baby shower
