## Customer Reviews

Book

I carried this book everywhere with me in the late 60s and early 70s..A lot of good information and a text telling how to live and treat others-Karma,forgiveness,etc-It tells the story of the lost years of Jesus we never hear about--He is a baby then 33 and crucified-very little in between--This was basically the hippie bible==Even if you don't believe the story per se as told thru prophet Levi you will get something from it--I guarantee it and it is readable--There are thees and thous but not to the point you say" I cant read this.'. Very happy to own it again..

Unless you are well versed in ancient/biblical history this book will be a difficult read.

Awesome book. I had the original edition that I had lent to a friend. Never got the book back (original editions are VERY PRICEY) which really made me upset. Ordered a used edition from 1984(?) and one from 2014. If you want to know about the details of the missing years of Jesus as well as other details not in the current versions of the Bible - this is it. Very enlightening.

I read this book twice a year. Each time through I read something I don't remember reading before.

This book is part of my morning devotional.

Book is in very good condition, One would think it was never read because the binding was nice and tight, pages are clean, covers extremely little shelf wear.

I was so excited to receive my copy. I looked through a friends copy and was intrigued by the verses. It's easy to read format helped too. An eye opener for most.

Yes, it proved that whomever wrote the qauron plagiarized from portions of this book

A different outlook to looking at the life of Jesus the Christ.
