Rogue Spooks: The Intelligence War On Donald Trump

Synopsis

In *Rogue Spooks*, best-selling authors Dick Morris and Eileen McGann uncover the facts behind allegations of foreign meddling in the 2016 presidential election. This groundbreaking exposé will leave listeners questioning the motives of US Intelligence agencies, leftover partisans within our government, and members of the mainstream press. Donald Trump's first 100 days in office were roiled by allegations of treasonous contacts between his campaign team and the Kremlin to rig the election. These outrageous charges first surfaced in the notorious "Trump Dossier", an unverified document of suspect provenance, full of wild and salacious accusations. This dossier - filled with little more than gossip, rumor, and innuendo - was compiled by Christopher Steele, a former British intelligence operative who teamed up with the FBI and anti-Trump partisans. Hillary Clinton supporters paid for Steele's work. When no news media would publish the unverified dossier, the ex-spook enlisted the help of a former UK ambassador to Russia, who arranged in turn for a former US Assistant Secretary of State to get the document to Senator John McCain, in the hope that he would then bring it to FBI Director James Comey's attention. McCain did just that. Comey himself played a critical role in the dossier ultimately going public, giving a confidential summary to President Obama and congressional leaders. It was immediately leaked by rogue spooks in order to demean, destabilize, and destroy Donald Trump's nascent presidency. The dossier and this mythical intelligence are the basis for the phony claims about a Russia/Trump collusion to steal the election. No proof was found. No substantiation uncovered. Even Comey told Trump he was not under investigation for the Russian meddling charges. But that didn't end the leaks or the allegations. Working in concert with liberal news outlets, these rogue spooks have formed a new intel/media complex that threatens our democracy. *Rogue Spooks* will reveal how it works. Listeners will be shocked to learn the truth about the false accusations against President Trump in the flawed dossier. They'll be interested to know how leaks to the media fueled the phony scandal and how intelligence agencies will try to use the newly appointed special prosecutor to oust President Trump. They will also learn what we can do - specifically - to stop them.

Thank you, Dick Morris! This is the greatest book I have ever read on American History in a nutshell. It is hard for me to believe that the FBI and CIA are infected from top to bottom with agents whose sole purpose is to bring down our duly elected President Trump. All makes sense now, Obama's interference in elections, the back stabbing of Congressional leaders and our own Republican Party! I am going to do everything in my power to stop this unlawful attack on our President. Please continue notifying us through email daily. Your work is fantastic and rings so true! My faith in America's People gives me great solace as we prepare to cheer our President through the next 8 years! God Bless America, and May God Bless Dick Morris for this magnificent masterpiece of SpyWorld USA! Never again will I trust the CIA, the FBI, the NSA or any of the alphabet agencies whose soul reason for being is to destroy American and our duly elected President Trump! McCain is the real rat face in Republican Party.

Aristotle viewed democracy as an inferior system of mob rule. Quantity over quality. Apparently, top leaders in different government agencies and departments feel they are the 'quality', and steer things according to their personal agendas with a sense of knowing superiority, so "damn the public". Dick Morris & Ellen McGann have compiled an extraordinary overview of the illicit workings behind the CIA & FBI through many presidential administrations showing how our top officials have chosen to ignore basic constitutional rights, sneer at public choice and maneuver behind the scenes to compromise, exploit and subvert public opinion to suit their own personal agendas ~ agendas that have led and continue to lead to catastrophe and denigrating the rights of the people of this fine country. This book can educate people about the workings of the deep state and it shows a route to take back what has been stolen from us ~ our right to the truth, privacy and choice (and lets throw in the pursuit of happiness!). We chose our presidential leader and now he deserves a chance to do

his job without the Intel community attempting to re-choose for us by crafty and dastardly manipulation which can ultimately lead to a coup d'état of their making. The book is well written and an excellent read!

i am unable to read any media reports now without seeing the blatant manipulation. no confirmed sources, innuendo, and subversion of the truth. the "deep state" is alive and well. every american should read this book before it's too late. dick morris provides the perspective that is hidden from the majority of people. things that don't make sense, come into full focus as dick morris connects the dots.

Fantastic book! Dick Morris delivers solid gold again! Everyone should buy this book, Dick's observations and analysis are first class all the way. Lots to learn from this book if we are going to preserve our democracy and stop unelected, unaccountable bad actors from subverting our democracy.

Thorough summary and analysis of high stakes current events and the attacks on trump by what people call, the deep state. A great read whatever party you belong to imo.

Really good book, easy read and full of information about what's really going on. I watch Dick Morris on You-Tube and he really explains things clearly about politics that I have trouble understanding. He's like sitting down with a good friend and getting an education. His book reads the same way.

What I have read so far is fantastic...Morris & McGann have really done their homework...A book every American should read!!!

Very informative and eye opening. As someone who did not vote for either major party candidates, I would encourage others to read this book.
