Customer Reviews

I really like the marriage of performance elements and written notations in this textbook...The fundamental topics are in depth and have good hands-on practice opportunities. "The book has attractive features that other books don't have, such as more performance

opportunities and more aural exercises - Jeannie Barrick - Texas Tech University, Texas
I love the online element. It is easy to use and easily accessible - Denise Grupp-Verbon
- Owens State Community College, Ohio I like how rhythm and meter studies, ear
training etc, and composition exercises are mixed in. So much easier to present all these different
approaches to the material when it is all in one place. - Lynda Reid - South Plains College,
Texas

Summy Takesue is an Instructor at Santa Monica College, teaching theory and class piano. She has
taught at University of Hawaii (Hilo) and the University of Southern California.

Used it for school. Really helped with my homework skills.

Book is missing the pull-out keyboard and does not come with perforated workbook pages. I had to
make photo copies the entire semester. Additionally, the binding falls apart pretty fast so you have
to be very gentle with it. I would not recommend this for those who take notes on textbook pages
because the paper is very glossy. Save yourself the time and buy it from your school's library.

So angry. Needed this book for a class and ALL the workbook pages were torn out. Not only did I
waste my money, but I missed my assignment deadlines.

personally loved using the ebook than purchasing/renting the actual book for class.

expensive
