# Teach Your Kids To Swim: Tips And Tricks For Fun-for-everyone Swimming Lessons

TEACH YOUR  
KIDS TO SWIM

TIPS AND TRICKS FOR FUN-FOR-  
EVERYONE SWIMMING LESSONS

KAREN MURPHY

## Synopsis

Learning to swim can be agony for a kid. Formal swimming lessons are designed to churn kids through a system that makes it look like they're making progress while leaving them lacking some basic skills and having zero fun. It doesn't have to be that way. This comprehensive step-by-step guide gives you everything you need to know to teach your kids to swim, on your schedule and for the cost of less than one formal lesson in a way that will be fun for everyone. Whether you're teaching your kids to swim all by yourself or want to do everything you can to support formal lessons, Teach Your Kids to Swim lets you leverage your advantages as a parent to make your kids' learning experience effective and fun.

in Books > Health, Fitness & Dieting > Exercise & Fitness > Swimming #1080 in Books > Sports & Outdoors > Water Sports

## Customer Reviews

I thought this book was very well written and as a swim lesson instructor, found it helpful for new ideas. It also helped me with giving instructions to the parents (or I've recommended they get a copy of the book themselves to assist the lessons) to continue at home and support what we're doing in the lessons. I'll be reviewing this before each summer!

This book has good ideas for getting kids comfortable and confident in the water. Even if you plan to pay for a swim instructor, I would recommend starting with these ideas first, so that your child is happy and ready to learn from a paid instructor. Even a parent who cannot swim at all can use many of these ideas. There are also tips for reinforcing your child's learning outside the pool. Only four stars because for the length of the book, I think it is overpriced. Borrowed on the Kindle lending library, it gets five stars!

Good, simple guide - written from a kids point of view. Looking forward to trying this out with my own kids. Taking one star off as it is a relatively short book for the price, but overall well worth it.
