Gr 4-6 • It's the dog days of the summer, 1972, and spirited 11-year-old Naomi "Chirp" Orenstein tries to enjoy them as best she can—but something is wrong with her mother's leg. Chirp's mother Hannah is a dancer and the prospect of permanent limited mobility is both heartbreaking and terrifying. A diagnosis of MS sends Hannah spiraling into a debilitating depression, and she is sent to a mental hospital. Chirp's father, a psychiatrist, is consumed with grief and tethered to work, leaving Chirp and her older sister Rachel alone much of the time. After several months of therapy, Hannah returns home. The reunion is short-lived as she slips deeper into depression and tragically decides to end her life, leaving Chirp, Rachel, and their father to navigate their transformed familial relationship. A stunning debut, with lyrical prose and superbly developed characters, this novel is an emotional roller coaster that effectively conveys a family's visceral tragedy. At times tear inducing, the narrative is also vibrantly alive, assisted in part by the Cape Cod setting and refreshingly unplugged 1970s. The focus on nature and the outdoors helps set the pace as the seasonal changes quietly indicate the passage of time. Sensitive readers should be aware of the tough issues that it addresses—suicide, depression, and personal loss. However, the story also offers a hopeful message. Strong readers who enjoy realistic fiction and the occasional

good cry will savor Nest and reflect on it long after its conclusion. — Juliet Morefield, Multnomah County Library, OR --This text refers to the Hardcover edition.

This will be difficult for me to review without spoiling the story, so I will just say that this book is crazy good. I laughed. I cried. And, laughed and cried some more. Chirp is such a well rounded character whose emotions are so strong in all directions. I was most impressed with the relationship between her and Joey. I honestly don't know what to say about this book. Definitely had some concerns about adding it to my classroom library for my 5th graders. However, after finishing the book, I've decided to add it for my more mature readers. Definitely some great writing in this book.

Emotionally grabbing story told from the perspective of a pre-teen daughter who's mother is encased in clinical depression. I am giving four (not five) stars because I felt the maturity levels of the daughters inconsistent, and role-changes questionable to the point of a touch of impossibility. Nevertheless, the story brought great emotion and reality to the struggles of the family. Chirp is delightful! Her character made me want to have a do-over of my childhood. Keep tissues handy!

Nest is poignant storytelling that moves and delights. It also draws characters that live with you long after the last page is reluctantly folded over. The voices of the young characters are so true, natural and unique that one wishes like hell to be able to dive into the book to hold their hands, or stroke their hair. Many difficult issues including death and illness are managed with a clarity and sensitivity that allows the reader, whatever age, to come to terms with these inevitable life dramas. I highly recommend this book for young adults or old adults. It's just a really great book. Kudos to author Esther Ehrlich.

Funny, tender, extremely poignant story of a girl who had the good luck of having been deeply loved

and the emotional challenge of having to deal with much sadness. As realistic of a portrait of a young person's inner life as I have encountered. In a day and age where relationships are often given a superficial and distant consideration, Esther Ehrlich moves really close and brings her characters and their relationships to us in all their depth and humanity.

Its okay

Nest is a wonderfully written and rare novel. It made me remember what it was like to be a kid - the complex thoughts and the enormous, unstoppable emotions that I had to feel and deal with in my own way. Chirp and Joey are as real, funny and powerfully drawn as any characters I've read - the author brings them to exuberant life. I really fell for Chirp! Highly recommended for both kids and adults.

Very satisfied

Just not what I expected.
