Image Transfer Workshop: Mixed-Media Techniques For Successful Transfers

Synopsis

No Fear Transfers! If you have never tried image transfers or have experienced image transfer mishaps, then *Image Transfer Workshop* is for you. This book presents step-by-step techniques for 35 image transfer processes, extensive tips for fixing mishaps and examples of how to combine transfers in finished pieces of mixed-media art. This comprehensive guide features:

- 35 Techniques: This book focuses exclusively on making transfers from simple tape and gel medium transfers to more complex and out of the box techniques, like solar silk screens and plastic wrap transfers.
- Troubleshooting: *Image Transfer Workshop* includes extensive answers to help fix problems in transfers gone wrong. You'll learn what to watch for, what to do to get great transfers every time.
- Dual Styles, Dual Approaches: The authors' different styles illustrate how transfer techniques can take on completely different looks. Finished pieces of art for each technique and a section of completely stepped-out projects are sure to inspire you!

Let *Image Transfer Workshop* help build your image transfer confidence.

Customer Reviews

Darlene Olivia McElroy has taught a variety of mixed-media subjects at the collegiate level and has led workshops at local craft stores as well as in her studio. She has received two Best in Mixed-Media awards from the Contemporary Hispanic Market (2005 and 2006) as well as Best Dimensional and Best of Show at the Faces of Women in Las Vegas and New Mexico. Sandra Duran Wilson has been teaching Alternative Printmaking at Santa Fe Community College for the

last three years, and she teaches workshops at a variety of venues. She received the Best in Printmaking award in 2002 and the Best in Mixed-Media award in 2004, both in the Contemporary Hispanic Market.

the Image Transfer Workshop is a beautiful book. it arrived in beautiful condition. as I am new to the subjects in the book, I haven't done anything with it as of yet, but plan to use it as soon as possible. it has so many possibilities and beautiful diagrams and subjects that I can't wait until things calm down at our home to be able to concentrate on it to find some new artsy way of doing things.

Wow! I love an instruction book where you can actually follow the instructions and have something worthwhile when you're done! This book is so well put together that once you assemble the list of materials, you're well on your way to creating a piece of art you actually want to share. Mixed media is such a fun process and the Image Transfer Workshop takes all the frustration out of the many different processes. Thanks Darlene and Sandra for all your work!

Image Transfer Workshop is an ideal book to get you started on learning the techniques for successful transfers. It's illustrations and detailed instructions plus its "tips" get you on the right track to creating your own transfers for your art or craft projects. Talented artists Darlene Olivia McElroy and Sandra Duran Wilson inspire you to play and experiment with your art using mixed-media. If you are a beginner or an established artist and want to learn to do transfers, this book is for you.

I wanted an overview of transfer techniques, and this book does not disappoint. I recommend it as a first choice if you wish to see a wide variety of method explained so that you can pick and choose among them to go deeper into them or combine them and learn more. I keep it by my side when trying one of the presented techniques, and refer it to when researching deeper on the web and in other books.

This is a great asset for mixed media and collage arts. My group has been to Darlene's studio and some have seen her demos. We hope to do so as a group this year to watch her demos. She is great

Love this book, and I am glad I added it to my collection. Has some very useful info!

Whenever I see a new book come out on my favorite technique, image transfers, I simply cannot restrain my fingers from hitting the "buy me now" button. Once in awhile I am disappointed but sometimes I am also totally, unabashedly, thrilled with a book. This book, "Image Transfer Workshop", looked like it was right up my alley and it is ! I LOVE this book. It explores so many different techniques and presents them so well that I would venture to say that this is a "must have" book for anyone who has an interest in image transfers, mixed media, or art quilting. I think it is one of the best books on this subject to come down the proverbial pike in a long time. "Transfers & Altered Images" by Chris Cozen is still a favorite book but is a bit more technique focused because Ms. Cozen is an artist for Golden Paints. Golden Paints are my favorite products to use but it is good to have a book that covers ALL manner of image transfer techniques. This book does that and does it very admirably. The variety of techniques covered in the book is phenomenal . It's a fabulous resource and I think, should be in the library of any mixed media artist! 5 stars on this one ! Highly recommended!

Packed with very doable techniques. Very inspirational.
