## Customer Reviews

This is a real nice collection of beginner banjo tabs for \$0.99. It starts out with a couple of SUPER EASY but still fun tabs then adds in some harder to fret notes with Blackberry Blossom and nice tab

for Simple Gifts. It contains a nice curve of difficulty that is sure to keep the beginner entertained learning his first few songs. I wouldn't recommend this book to anyone who would consider themselves anything more than a "beginner" tho as these tabs are kinda "easied" up versions of the tunes they represent.

Easy, but not for beginners. Need to understand pull offs, and hammer ons. Avoids drop thumbs with some awkward fingerings. Worth a buck for some nice practice tunes to learn.

I have had lots of fun working with these books. Listening to the songs in different variations that are easily found on the banjo hangout or iTunes and practicing a phrase from the book and soon you will be playing the song. The books are a real nice step up in difficulty from a real beginner book. Thanks Mr. Brooks I am having fun with them. They work great on an iPad.

Love it
