Stephen Elkins is the creator and producer of WonderWorkshop, the third largest producer of kids' music in the world (per Billboard magazine). He is also the winner of numerous awards for children's music and has been nominated for a Grammy award. His work has appeared on Top Kid Audio charts in Billboard magazine for more than 100 consecutive weeks.

The best! Great for early readers because they can follow along with the CD's. We play the CD's in the car now and my kids cannot get enough. And these stories and songs are not annoying! I love it too. Kurt Cameron narrates the stories in this and he does a great job of it. Stays true to the Bible. So well done. Try to find a copy with both of the CD's, if you can, because they are just so good. The songs appear to be sung by girls, so I cannot say what an older boy might think of this. But it is worth a try. My kids are both preschool age, so short stories are perfect for them. They ask for this every time we get in the car.

I've listed this book on my web site, [...] as one of my all-time favorite resources. The book has no

index so I've created one on my site for it. See the "Behavior Tips" tab for the index listing. I have two sons very close in age that are now 12 and 13 -- one is gifted and one has autism. This book worked very well for both of them. As they got older, I would have them use the index I made to find the appropriate Bible verse and story and then write me a sorry card as outlined on my site. I am always so very surprised to discover that more people don't know about it. This book is one of the best book (and CD) investments I've ever made! I see that it's out of print now so you better get it FAST! We've used it for years and years.

My children all enjoy this book and cd set. The cd enforces which ever lesson they have just learned for the day with a fun and catchy song.

Absolutely great book for my Home Day Care devotion time. The children really love the songs too.

The children like the stories and the music with the memory verses. I have children from kindergarten to sixth grade. You can make it short or stretch it out, put a project with it.

One Cd missing. Thought it had both Cds . When I read ad it said it was used which was ok. However I thought it said Cd include I did not understand that meant that out of two one was missing.

Love this! This is my second time ordering. This one will be a gift. Love Kirk Cameron!

Missing a DVD. I ordered 3 of these books and they all were missing the CD that came with it. Kind of pointless, IMO.
