## Customer Reviews

It has some really good recipes in it. And you choose what ones you want to make and print them out or just make it from your computer or tablet. I'm going to make the "Mexican Stew" first.

Facebook had it and had a link to go to for the recipe, but I didn't do it. Get this book to check it out.

Cast iron cookware is a fantastic way to cook and these recipes are so delicious. I can't wait to try

more of them. Now everyone's taste buds are different. I personally like the skillet scalloped taters and the chicken enchilada skillet. But that's just me . Thank you and enjoy your day.

I has some nice sounding recipes but there are no pictures and I don't know about you but pictures really sell the recipe when it comes to food. That was the only disappointment I found.

I am so happy that I purchased this book , I have never heard of a cast iron and after reading I am definitely going to invest in one. The advantages of owning one is limitless , it is cost effective, it provides health benefits , durable and also it allows for the cooking of tasty dishes especially meat!!!! I love the recipes mentioned in this book they were easy to follow and would be easy to cook . I highly recommend this book for every household.

Just do it. Mouthwatering down home recipes. Born and raised on a farm in Boring, Oregon. These recipes fit right into my memories of great cast iron pans. Mom had her moms' plus her own. Dang. Wish they would have come to me! Anyway, buy this cookbook.

Great book

Excellent cookbook! It has excellent and delicious recipes that are very easy for preparation. I like some brave combination of spices that are not so common for some other cookbooks I've recently read. I enjoyed reading this book, and now I enjoy even more while I cook those meals.

Loved the recipes! A lot of great ones!
