David Day graduated in 1965 with an engineering degree from the University of Arizona. His first job after college was with the Cabin Creek Hydroelectric Project in Colorado, after which he joined the Peace Corps to teach electronics in Malaysia. He held a variety of jobs in Arizona, Nevada, Hawaii, and American Samoa before switching careers in 1977 to become a full time writer and photographer. His publications include books on Southeast Asia, Utah, and now Colorado.

This is a really great guide to a variety of different backcountry areas throughout Colorado. This guide covers a wide swath of the state and a variety of different landscapes. Even lifelong residents of Colorado will probably discover several new gems in this book. The guide is easy to read and is pretty thorough in regards to technical information.

Best guide for the hikes covered. The pictures speak for themselves.

Great book, mostly day hikes but there is a good selection of longer hikes too. Lots of hikes I've never heard of.

Excellent book. A godsend for our hiking club in planning group hikes.

This is my second David Day book (I also have Utah's Incredible Backcountry Trails) and they are excellent. The maps are very good and the descriptions are accurate and informative. These guides are sure to help you locate and enjoy many hours of hiking on these Awesome trails.

Must have for anyone trying to escape into the backcountry. Great book.

Wonderful, well-written book. Love the photos, maps, and plethora of information.

Great trail book. The maps are broken down by mileage in sections and I love this!! Wish it had even more trails!!
