## Customer Reviews

Emily Andras was the Showrunner and Executive Producer of Lost Girl for Season 3 and Season 4. She was a writer and consulting producer during the first and second seasons. She succeeded Season 2 co-showrunners Jeremy Boxen and Grant Rosenberg; and Season 1 co-showrunners Michelle Lovretta and Peter Mohan. Andras was initially offered the position of showrunner for the second season, but was unable to accept due to pregnancy. Andras joined the production team of new science fiction adventure series Killjoys (created by Michelle Lovretta) as a writer and consulting producer. In January 2015, she joined Omnifilm Entertainment in adapting "The Cousins O'Dwyer Trilogy" by Nora Roberts as a television supernatural drama titled Blood Magick. She is the showrunner and executive producer of the supernatural Western series Wynonna Earp.

I love the show (I will definitely buy the season one disc set) and the graphic novels. If you are hoping for a season recap with photos, bios and more you will be disappointed. I consider this book a money grab by IDW and nothing more. It wouldn't even hold the attention of a ten year old. It is

just 48 pages of blah. There are character pages for the core group but nothing for the witch, sheriff or the aunt. Wynonna (our star) gets 4 pages of stills of which two are full page shots. Each character of the "core group" gets a two page treatment using 4 to 7 stills. Obviously in IDW's opinion there are only 5 worthwhile characters beyond Wynonna herself. No backstory or character data is provided for anyone. The character pages are followed by single page layouts (again with no back story) for each individual episode. These single page formats contain up to 12 stills for that episode. None of these photos are the money-shot pics you would expect like fight scenes or something eye catching such as special effects. Now we get to the final section of the book. The "Behind The Scenes" section is very disappointing. Nothing noteworthy or different from the rest of the book. I hoped for possible actor/actress bios and there were none. A lot of this section was used to show full page photos of the teaser ads that ran in the magazines like TV Guide before the first season release. There was a two page spread showing the casts' reaction during a script reading to being renewed for a season two. This was the only unique "behind the scenes" content of the book. Considering how long ago I preordered this item I am convinced they had adequate time to dedicate to its development. This should have been a keepsake book for fans. What I got was a major disappointment. Everything was so mundane. A person could cruise the internet and find more exciting things about the show. Save your money and use it on the graphic novels or a digital copy / disc set. This book is definitely not worth the time or the money. I really hope the actors and actresses will not endorse a second season book by this publisher after they see the treatment season one was given. Money grab items can turn a fan sour to a franchise very quickly. Seriously IDW I expect better from you and considering you had models like the "Buffy The Vampire Slayer" season recap books available there is no reason for this book to have been so lackluster. The cast and franchise (and especially the fans) deserve a much better presentation than what they were given
