## Customer Reviews

The experts at The Princeton Review have been helping students, parents, and educators achieve the best results at every stage of the education process since 1981. The Princeton Review has helped millions succeed on standardized tests, and provides expert advice and instruction to help parents, teachers, students, and schools navigate the complexities of school admission. In addition

to classroom courses in over 40 states and 20 countries, The Princeton Review also offers online and school-based courses, one-to-one and small-group tutoring as well as online services in both admission counseling and academic homework help.

Really useful book for TOEFL preparation, but... the book's type of paper could be better. Recycled paper is not the most adequate paper for writing, and this book has a lot of writing exercises.

This book is amazing. I studied it for less than a month and did my test few days ago. The test looked very familiar to me as the book gave me great background about the test. I love this book and the CD made it even easier to get to know the test more and more.

I bought this in order to take the TOEFL, but for personal reasons I ended up taking the IELTS. So I prepared using this book and I got a 7.5 score overall. If you don't know, the highest grade on the IELTS is 9. I've taken the TOEFL before and can tell you that the tips given here are very useful and could definitely help you improve your score on the test.

I have only praises to the publisher who compiled this guide to SAT for students. The result was marvelous. My niece, who attempted the SAT in India obtained a cumulative total of 1800. She's not happy though, and wants to attempt once again for SAT test and obtain even higher scores. So she'll be going through these guides to SAT over and over again. Thank you and PRINCETON.

Thorough guide for studying and planning ESL lessons for the classroom.

Great

Thanks, the book plus audio CD looked brand-new, quality is very good (cracking or not the exam won't have anything to do with this, though! it will mostly depend on my commitment to studies)

I bought this text book for my wife. It has so many tests, articles, English grammar and English words for this test. I recommend buying this text book and read it from cover to cover. It has so many examples of each section in the test. So many revealed tricks inside of it.
