## Customer Reviews

Disney Publishing Worldwide (DPW) is the world's largest publisher of children's books and magazines, igniting imagination through storytelling. DPW creates and publishes books and magazines both vertically in-house and through an extensive worldwide licensing structure.

Headquartered in Glendale, California, within the Disney Consumer Products and Interactive Media business segment, DPW publishes books, magazines and digital products in 85 countries in 75 languages. For more information, visit [disneypublishingworldwide.com](http://disneypublishingworldwide.com).

For years I've enjoyed Amy Mebberson's "Pocket Princesses" on Facebook and Tumblr, a series of comics that places the assorted Disney Princesses in various comedic situations. I knew from her posts that it's always Mebberson's dream to work in an official capacity for Disney, and it appears

she got her wish! Disney Princess Comics Strips features her artwork, which renders the characters with their original designs, but also in Mebberson's distinct style. They're diminutive, with slightly oversized heads and big eyes, but still as familiar as they are adorable. This volume collects the first four Disney Princess comics into a single edition, featuring Snow White, Cinderella, Aurora, Belle, Ariel, Jasmine, Pocahontas, Mulan, Rapunzel, Tiana and Merida (no Elsa, Anna or Moana though *ÀfÂçÃ â ÑÃ â œ* their films hadn't been released at the time of publication, though I'm sure they'll turn up soon enough). The comic strips provide humorous glimpses of the princesses' lives at any point of their stories: for instance, Rapunzel can appear in her tower, all her golden hair still intact, or at her parents' castle with Eugene, her brown hair in a bob. Ariel is still a mermaid (placing her *\*before\** the events of the film) and Belle interacts with the Beast and the household objects at his castle (all obviously still under the spell). Due to a strange directive of Roy Disney's, the Princesses in the line-up are never allowed to interact with each other on any official merchandise. Even when they're standing next to each other in a row, you'll notice that they never make eye contact with each other. That mandate is still in effect for these comic strips, so be warned that (unlike Pocket Princesses, which can be found easily on-line) all the characters featured here exist within their own stories. So if you're putting this in the hands of a young princess-lover, they might be disappointed at the lack of cross-over, though the comic strips are funny, colourful and sweet, each one capturing the distinct personality of each heroine: Belle's love of books, Tiana's enthusiasm for cooking, Mulan's skills as a warrior, Ariel's spunk and curiosity ... some of the characters even benefit from the extra attention: let's be honest, the likes of Aurora and Snow White could use a little fleshing out. In short, just what I expected from Amy Mebberson, and a great gift for any fan of Disney.

This covers comics issues 1-4 and the designs are super adorable. They go from Snow White to Rapunzel (there is no Frozen or Enchanted) The artwork is super adorable, and the princesses stay true to their stories and their personalities. This is great for a Disney fan of any age.

I am a 23 year old, but I follow Amy Mebberson on Facebook for her " Pocket Princesses" and I love this book so much. The art and storyline is amazing and it is funny too. !

I loved, loved, loved this collection. I really admire the way the writer went beyond the typical Disney Princess storylines-- all those bland generic ones about finding someone a birthday present or whatever-- and really focused on the individual characters' stories and opportunities for humor in each of them. Belle trying to get some privacy from her own furniture, Mulan coaching her friends in

combat, Aurora's fairies trying to help her adjust to life in the palace-- the personalities of the characters really shine through in fun ways. The art is super cute and does the same great job of keeping the princesses distinct and in harmony with their own tales, without simply drawing them in their movie costumes ad nauseum. My six-year-old daughter loves the collection too, though one or two of the longer jokes she needed explanations for. I really hope they keep this series going!

So cute and funny! Not crude humor, great for kids. My 15 year old niece thought it was hilarious, too.

Love it, so well done, Amy Mebberson is an excellent artist. I have had the pleasure of meeting her at a con and she was very kind.

Excellent! Great stories and great art work

This is the cutest little book of Disney comic strips ever. My only issue with it is that Mulan is NOT a princess, doesn't matter to me if Disney included her in the official princess line up.
