Not impressed at all. I accidentally bought 2 of these and sent one of them back. I wish I had looked at it closely before I did that; I would have sent them both. the pages are impossible to tear out

without tearing the picture (I've ruined 5-6 of them so far) and they are impossible to color while still in the book. The pages are very thin so markers bleed through. Just not impressed.

I really like this book, the patterns are very interesting and fun..The only thing I would have liked is that the color guide have the names of the colors and be in the front of the book. Some of the darker ones are hard to tell what they actually are. I did discover that if you shine a light on them, then you can tell them apart.

The quality of the pages are horrible for the price. For the price the pages should be thicker. Not able to use marker or glitter pens.

Great book being so creative i am!

My daughter is enjoying this book. I recommend it especially for those who are looking for an easy craft.

Complicated

AAA+

Perfect pages with easy to see numbers and very colorful!
