Customer Reviews

I have always wanted to go to Italy, for now I only dream and this book is perfect not just for dreaming but also planning my eventual trip some day. This book is full of interesting facts and history, it's a lot like a reference book as well. This is the kind of book that you want to have to not only plan your trip but also an ideal book to keep handy so that you can visit the points of interest that Sam describes for each city. You just feel like you are right there as he describes the "Top Ten". He even goes so far as to add commentary about dining experiences as well. This book is a must have if you are planning a trip to Italy. I just have to see Venice!

Who doesn't want to go to Italy? Well, it must be every person's dream to visit and tour around this beautiful place. If you want a simple guide, you can always refer to this book. Highlighted are the top ten cities in Italy and the tourist spots that present the best of each cities. By using this book you can make the most out of your stay in Italy. At the same time, when it comes to your budget you can plan in advance how much will you be needing as you'll have an idea on which places you can visit and make some more research about it. Wonderful guide!

This guide helped me plan my future vacation to Italy perfectly! I was excited to see it contained Venice (which a lot of books do) but also a lot of other locations that are not as firmly on the map (which a lot of books don't) because I plan to see both. Soon I will be able to say to my friends that I took a vacation to Bologna! Haha! Each section is intricately detailed and gives a great rundown of every aspect of the location. Just the book I was looking for

While reading a guide book about France, I decided to read more guide book and I choose Italy because it is a lovely place too. I don't know why others always saying that this is not a good book but for me it is because some of the information here are new and unique to me. Again, I appreciate more this kind of book than those who are highly rated. Even there are lots of wrong in this book it is good if you understand it well.

Very useful and practical for a coming trip.

Don't waste your money on this book. Nothing of value here for anyone visiting Italy for the first time. More information can be obtained online than within these pages.

Not much information in this one. Ordered another one that is more thorough.

Less than a cursory introduction to cities. Mostly useless
