TOAST COETZER is a senior writer at the South African magazine Go! and WEG. He has lived in the city since 2001 and rather likes it. He is also the author of The Key to Cape Town, a best-seller, published by Sunbird Publishers in March 2009.

I bought this book at a book store but I've logged in here to order more to send them to friends abroad. The photography in the book is absolutely fantastic. I buy a lot of cook books and the first thing I'd consider is how many and good photos of the food there are in the book. It certainly helps to picture what the food would look like in the process of making or when it's done. And I find it exactly the same for any travel guides/books since it's about places that I don't know much about or never seen, and seeing the photos of the places definitely helps giving me the idea of the places.

The photos in the book are not just regular photos of any travel books and the photography itself would make this book a great addition to one's bookshelf. The photos show fun, interesting, intriguing aspects of the city. The writing in the book is obviously very entertaining as well as informative - you can get the perspectives of very local writers who know their stuff. I love this book. I just go through this every now and then - it simply is a great pleasure!

Key To Cape Town by Toast Coetzer and Samantha Reinders is a beautiful Insider's Guide to exploring the most important city in South Africa. I love the format with each page featuring a brilliant photograph and description of one of 115 wonderful places to visit and things to do in Cape Town. It is an easy guide to follow and to plan your trip, with fold-out maps on the inside covers and also some double page exquisite photos. The book's indexing is so handy: planning various itineraries for any preference of activity or interest, or any season, for a few days or a longer time. This book is a must for your trip there and also a wonderful guide for any Cape Town resident. We highly recommend it.
