Customer Reviews

Interesting that the cover is in English. When you open the book, everything else except the legend page, which doesn't translate well to the individual maps, is in Chinese. There is color coding in the legend, and the colors are so similar, they become meaningless. The maps are so small that only a few roads have names - typed in fuzzy Chinese. This is worthless to me. Nor sure if anyone in China could find this useful. I will take it with me to find out.
