Blood Born

Synopsis

When the human and the vampire worlds collide, there will be hell to pay. Luca Ambrus is a rare breed: vampire from birth, begotten by vampire parents, blood born. He is also an agent of the Councilâ⠬⠕the centuries-old cabal that governs vampirekind, preserving their secrecy and destroying those who betray them. When a cryptic summons leads him to the scene of the brutal killing of a powerful Council member, Luca begins the hunt for an assassin among his own people. But instead of a lone killer he discovers a sinister conspiracy of rogue vampires bent on subjugating the mortal world. All that stands in their way are the conduits, humans able to channel spirit warriors into the physical world to protect mankind. Chloe Fallon is a conduitâ⠬⠕and a target of the vampire assassin whoââ ¬â,¢s killing them. When Luca saves her life, an irresistible bond of trustâ⠬⠕along with more passionate feelingsâ⠬⠕is forged between them. As more victims fall, Chloe and Luca have only each other to depend on to save the world from the reign of monstersâ⠬⠕and salvage their own future together. From the Paperback edition.

PrologueLos Angeles, California A She was losing her mind. There was no other explanation. \tilde{A} \hat{A} She hadn \tilde{A} ¢ \hat{a} $-\hat{a}$,¢t slept more than thirty minutes at a stretch \tilde{A} \hat{A} for the past three days. How could she, when the A A dreams were so vivid and came so guickly, one after the A A other, startling her awake every time her name was A A called? Some of the details were murky, but two things A A she always remembered very clearly: the man, and the A A way he called to her.à It wasnââ ¬â,¢t fair. She was twenty-three years old,à healthy, unattachedâ⠬⠕at the momentâ⠬⠕and living in theà Â bustling and exciting city of Los Angeles, far from the \tilde{A} \hat{A} family she \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢d left behind in Missouri. She should be having A A the time of her life, the way she had been just a few A A days ago, and not dragging herself around in a stupor Â of fatigue. Normally she wouldnĀ¢â ¬â,,¢t complain aboutà vivid dreams of a very large and muscular, mostlyA A naked, dark-haired hunk who felt so real there were A A moments she actually forgot he was the product of a A A dream, but she needed her sleep.à Now it was getting worse; he was invading her wakingà Â hours, too, though, to be fair, for the past three A A nights it seemed as if most of her hours had been spent A A awake. Sheââ ¬â,,¢d started hearing him at different times,à and the way he called her name was getting more and A A more urgent. Hearing him! Really, truly hearing him. It A A might be a whisper of her name as she walked downA A the hall, or a very faint yearning call as she stepped intoà the shower. She wasnââ ¬â,¢t imagining the voice. It was real.à Only it couldn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t be real. She didn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t do drugs, so that \tilde{A} \hat{A} meant she was losing her mind. It was the only explanation. A A Fine. The mind could go, so long as she could A A get some sleep.à Sheââ ¬â,,¢d been sitting slumped at the table, picking atà an ordered-in meal, but she was too tired to eat and A A finally she gave up on the effort. Dragging herself to A A her feet, she cleaned off the table and tossed what was A A left of her supper into the garbage can. As soon as sheà lifted the lid, the strong, sour odor of several uneatenà Â meals hit her right in the nose. Shit, she should $\tilde{A}\phi = -\hat{a}_{,\phi}\phi$ taken \tilde{A} he garbage out before it got dark. Not that she wasA A afraid of the dark, and the Dumpster for the apartmentA A complex was in a well-lit area just a few yards from the \tilde{A} \hat{A} end of the stairwell, but she \tilde{A} \hat{c} \hat{c} \hat{c} already changed into herà at-home grubbies, she was barefoot, and if she daredà Â leave the apartment looking like this the odds were A A she A¢a ¬a,,¢d bump into some really hot guy who A¢a ¬a,,¢d take oneà look at her and decide she was about as attractive asà Â her garbage. That was the way life worked. On the A A other hand, did meeting at the complex Dumpster A A qualify as \tilde{A} ¢â ¬Å"meeting cute \tilde{A} ¢â ¬Â•? \tilde{A} \hat{A} She could wait until tomorrow to take out the trash, \tilde{A} \hat{A} but that would mean waking up to that smell. And that A A was assuming she actually got some sleep

tonight. Sheà was so tired, she didnââ ¬â,,¢t think anything could keep herà awake, not even a naked dark-haired hunk. \tilde{A} \hat{A} She tugged the plastic trash bag out of the can and \tilde{A} \hat{A} tied the top, tested the knot to be certain it would hold, A A then trudged out the door, down the flight of stairs justà Â outside her apartment door, and around the corner.à ââ ¬Å"Johanna!â⠬•à Her hair stood on end as her name echoed both inà her head and from somewhere around her. It wasà Â spooky, the way the sound seemed to come from everywhere A A at once. It made her want to run home like a A A scared little kid, to hide her face in her mother $\tilde{A} \not c \hat{a} - \hat{a} \not c \hat{b} = 0$ lap. $\tilde{A} = 0$ And that was the last thing she wanted to do, considering A A how dead set her mother had been against her A A moving away. Things hadn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t changed since then, either. \tilde{A} \hat{A} Her mother was always warning her to be careful. L.A.Ā Â was a big city. She hated the idea of her daughter beingĀ Â in such a heavily populated place. So many people! The A Â lecture was delivered on a regular basis: Lock your A Â doors, donââ ¬â,,¢t go out alone at night, watch out forà strangers. Yeah, right. That last one was a hoot. Sheà Â was a hair stylist, so she met new people every day.Ã Â Moreover, she was fairly new to the area, which meant A A almost everyone she met was a stranger. Why bother to A A live in L.A. if she was going to close herself off in herA A apartment every night? She was here to make her reputation A A as the hair stylist to go to if you had a special A A event, someone who could make you look both elegantà and edgy. One of these days sheââ ¬â,,¢d be stylist to the stars. Ā Â The strange sound came again. There was an urgency Ā Â in this latest call of her name, as if it were a warning. à ââ ¬Å"Leave me alone, â⠬• she whispered, focusing on the A Dumpster straight ahead. The faint sound of her own A A voice made her sharply aware that there was no one inA A the parking lot of the small apartment complex at thisA A time of night. People who had to be at work early were A A already asleep, probably having perfectly ordinaryà dreams. Those who worked at night werenââ ¬â,,¢t home yet.à All she saw were a few cars, including her own, a lamppost, A A and the winding sidewalk that led to the pool. It Â was all comfortingly familiar. This was her home now; Â there was nothing to be afraid of, except the possibility A A that she was going nuts. A A She tossed the bag of garbage into the Dumpster. A A turned, and stifled a shriek as she lurched backward. A A almost bumping into the trash container. A tall man with A A long blond hair stood right behind her, reflective sunglasses A A making his eyes look like giant insect eyes, with the A A lights reflecting in the lenses. \tilde{A} ¢ \hat{a} "Shit! \tilde{A} ¢ \hat{a} • she exclaimed, then \tilde{A} \hat{A} put her hand over her heart as if she could physically calmà Â its frantic pace. $\tilde{A}\phi\hat{a} - \tilde{A}^{*}I$ almost jumped out of my skin! $\tilde{A}\phi\hat{a} - \hat{A}^{*}\tilde{A}$ Â He paused, his head tilting to the side. $\tilde{A}\phi\hat{a} - \hat{A}'$ Interesting, $\tilde{A}\phi\hat{a} - \hat{A}\cdot \tilde{A}$ \hat{A} he said. $\tilde{A}\phi\hat{a} - \hat{A}'$ I

didn \tilde{A} ¢ \hat{a} $\neg \hat{a}$, ¢t know humans could do that. \tilde{A} ¢ \hat{a} $\neg \hat{A}$ • \tilde{A} \hat{A} She would have laughed if she hadn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t been so preoccupied \tilde{A} \hat{A} with catching her breath. Where had he come \tilde{A} \hat{A} from? She hadnââ ¬â,,¢t heard a sound, though he had to haveà been following almost in her footprints. Surely sheà should have heard him leave his apartment, heard hisà Â door open and close. à Sheââ ¬â,,¢d been right about something like this happening,à she thought in disgust. Her hair was a mess, sheà didnââ ¬â,¢t have a trace of makeup on, and she was dressedA Â like a bag lady, so of course a trip to the DumpsterA Â would bring her face-to-face . . . well, face-to-chest . . . A A with a hunk. He was dressed all in black; he had a serious A A Johnny Cash vibe going on. Still, she should have A A seen him, heard him, but she supposed she could onlyà Â blame her foggy state of mind.Ã Â She tipped her head back to look at him. What wasà with those pretentious sunglasses? It was night. Notà that there wasnââ ¬â,,¢t a more than fair share of pretentiousnessà in L.A., where everyone was a star or about toà Â become one. This guy was no star. She wouldââ ¬â,¢veà remembered this face if sheââ ¬â,¢d seen it before. Wowza, A A she thought dazedly. He could give her dream stalker A A a run for his money in the looks department. A A Like she was in any kind of shape to admire handsomeà strangers.à ââ ¬Å"Run!â⠬•à The voice was the one in her dreams, and for aà moment she was stunned that heââ ¬â,,¢d said anything otherà than her name. Then the urgency in the faraway voice A A seeped into her weary mind and uneasiness chilled herà spine.à ââ ¬Å"Excuse me,â⠬• she said, stepping to the side to allowà him access to the Dumpster. He moved, too, his action A A mirroring hers, and like a slap in the face she realized \hat{A} \hat{A} he wasn \hat{A} \hat{c} \hat{c} \hat{c} and \hat{c} \hat{c} realized \hat{A} \hat{A} he wasn \hat{A} \hat{c} \hat{c} \hat{c} realized \hat{A} \hat{c} he wasn \hat{A} \hat{c} \hat{c} realized \hat{c} \hat{c} he wasn \hat{c} \hat{c} realized \hat{c} \hat{c} he wasn \hat{c} \hat{c} realized \hat{c} \hat{c} he wasn \hat{c} \hat{c} realized \hat{c} real Every cell in her body seemed to tense as aA A rush of alertness seized her, but before her brain couldà quite send the message to scream he lifted his hand andà Â used one finger to pull his sunglasses down so she couldA A see his blue eyes . . . his glowing blue eyes.A A The scream never came. She felt herself sinking intoà that gaze, and the odd thing was, she didnĀ¢â ¬â,¢t want to Â tear herself free. The growing fear of a moment ago Â vanished as if it had never existed; instead, she was A A filled with a sense of warmth and pleasure. He was A A beautiful. She wanted to please him, to do whatever he \tilde{A} \hat{A} wanted. \tilde{A} \hat{A} $\hat{A$ of wonder, reaching out as A A if to touch his face. A A He caught her hand instead, lifting it to his mouth inA A an elegant and old-fashioned salute. The touch of hisA A lips was warm on her fingers. $\tilde{A}\phi\hat{a} - \mathring{A}$ "Good-bye, $\tilde{A}\phi\hat{a} - \mathring{A}$ he said, \tilde{A} \hat{A} and slid eight inches of a knife blade between her ribsà Â and into her heart.Ã Â That hurts, she thought, but without any urgency.

 $\tilde{A}\phi\hat{a}$ $\neg \hat{A}$ " $\tilde{I}\tilde{A}$ \hat{A} don $\tilde{A}\phi\hat{a}$ $\neg \hat{a}$, ϕ t want to leave, $\tilde{A}\phi\hat{a}$ $\neg \hat{A}$ • she said, faintly bewildered. $\tilde{A}\phi\hat{a}$ $\neg \hat{A}$ " $\tilde{I}\tilde{A}$ \hat{A} want

to stay with you.â⠬• Why was it so hard to talk?Ã Â Why did she feel as if she couldnââ ¬â,,¢t draw a breath? Sheà blinked at him, trying to formulate an argument, butà thoughts kept slipping away from her and time fadedà Â away. She became aware, on some distant level, that \tilde{A} \hat{A} somehow she was \tilde{A} $\hat{\varphi}$ $\hat{\varphi}$ standing in front of him any \tilde{A} \hat{A} longer but was lying on the ground in front of the A A Dumpster. That was nA¢a ¬a,,¢t right. She would never . . . tooA Â many germs . . . she should get up.A Â And there he was again, the man in her dreams, asA A vivid as he had ever been. He said her name once moreA A and this time he sounded so sad and angry. Then heA A faded away . . . and so did she.A A Sorin stared down at the girl \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢s body. He didn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t rejoice \tilde{A} \hat{A} in her death, but he did regret that he couldnââ ¬â,,¢t feed fromà her. The conduits had to be killed in a normal fashion¢â ¬â •à that is, a normal human fashion, to keep from raisingà the alarm. This one had been very pretty, so pretty that, A A under other circumstances, heA¢â ¬â,,¢d have liked to spendà some time with her, feeding and fucking. She wouldà Â have awakened the next day feeling unusually weak butà otherwise in good health, and all sheââ ¬â,,¢d have rememberedà was having a really great time. Instead, an accidentà Â of birth had signed her death warrant. A A He could mark her name off his to-do list. A A A A A Northeast Alabamaà Melody leaned against the passenger door of a blackà Â pickup truck, and relaxed in the warm evening air. AA A breeze kicked up, blowing warm Alabama air thatA A smelled of honeysuckle across her skin. And there was A A a lot of exposed skin for that breeze to caress. Evenà back before sheââ \neg â,,¢d been turned, when she was just a sillyà Â human teenager, it hadn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t taken her long to realize that \tilde{A} \hat{A} men were suckers for big boobs, a flat tummy, and longà legs. She had all three and didnââ \neg â,,¢t mind displaying themà Â if it got her what she wanted. A A She smiled as the door before her swung open and a A A couple walked out of the bar. Wouldnââ \neg â,,¢t be long now; ità was getting late and there were only a few customersà Â left. Before the door swung shut again Melody caughtà Â a glimpse of the men lined up at the rustic wooden bar, A A their beers or whiskeys sitting before them, their gazes A A cutting to her. They knew she was here. Well, he knewA A she was here, and that was all that mattered.A A The conduit caught her eye just before the doorA A closed. She managed to tip her chin in way of a greeting.à He was cuteâ⠬⠕dark-haired and rugged, fit and tall.Ã Â He had workingman \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢s hands and nice eyes. It was his \tilde{A} \hat{A} truck Melody was leaning against, and she was waiting A Â for him. A Â Less than a minute later, he walked out of the bar. A Â His stride was long; his jeans were faded and nicely A A snug. His pretty green eyes were tired.à ââ ¬Å"Why donââ ¬â,,¢t you come back in?â⠬• he asked as heà walked

toward her. à ââ ¬Å"I don ââ ¬â, ¢t really care for alcohol, â⠬• she said. à Ã¢â ¬Å"Then why are you here? \tilde{A} ¢ $\hat{a} \neg \hat{A}$ • \tilde{A} \hat{A} Three nights in a row she \tilde{A} ¢ $\hat{a} \neg \hat{a}$,¢d visited this bar, coming A A and going quickly, getting a sense of who this man was. A A She had to be sure.à ââ ¬Å"I dropped in that first night by chance,â⠬• she said.à Ã¢â ¬Å"Since then I came here for you.â⠬•Ã Â He looked a little surprised but not shocked. A goodlooking A A man who had a decent job had to be in A A demand in this little town, which was seriously in the A A middle of nowhere. Melody smiled. She knew there A A was no one around here who could hold a candle to herA A when it came to blindsiding men. They were so predictable, A A so easy. A A A¢a ¬A"Take me home, A¢a ¬A• she said simply. A¢a ¬A"I canââ ¬â,¢t stay aroundà much longer. I have places to go, a job to do. But damn,à I don \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t want to leave without getting a taste of you. \tilde{A} ¢ \hat{a} $\neg \hat{A}$ • \tilde{A} \hat{A} He was definitely interested, but still wary. ââ ¬Å"Iââ ¬â,,¢m notà looking for anything serious. I got divorced just sixà months ago and the last thing I needâ⠬⠕â⠬•à ââ ¬Å"I just want your body, â⠬• she said, and that was the à truth. ââ ¬Å"Why don ââ ¬â, ¢t we go back to your place?â⠬•à He flinched a little, and said, ââ ¬Å"I donââ ¬â,,¢t want to goà home.â⠬•à There was a fear in his eyes that told her she had theà Â right man.à She looked around, blew out a huff of air. ââ ¬Å"ltââ ¬â,¢s beenà a long time since I had a man in a truck, but you $\tilde{A}\phi \hat{a} - \hat{a} \phi \hat{c}$ got \tilde{A} \hat{A} an extended cab and the windows are tinted, so I suppose \tilde{A} \hat{A} we can give it a shot. \tilde{A} \hat{c} \hat{a} $-\hat{A}$ \hat{A} The keys were out of his pocket in a flash. Melodyà stepped out of the way. It was a shame, really, but sheà Â had no choice. The conduit was a soldier in a war heà didnââ ¬â,,¢t even know he was fighting, but he was a soldierà all the same. \tilde{A} \hat{A} A gentleman to the end, he took Melody \tilde{A} ¢ \hat{a} $\neg \hat{a}$, ¢s hand and \tilde{A} \hat{A} helped her into the backseat. Theyââ ¬â,¢d be in crampedà quarters, but that didnââ ¬â,¢t matter. They wouldnââ ¬â,,¢t be hereà long. He joined her, closed and locked the door behindà him, and she moved in. Occasionally she ¢â ¬â,,¢d been chastised by her elders for playing Â with her food, but her elders weren¢â ¬â,¢t here, and Melodyà didn¢â ¬â,¢t see any reason why she couldn \tilde{A} ¢ \hat{a} $\neg \hat{a}$, ¢t make the end \tilde{A} \hat{A} pleasant. It wasn \tilde{A} ¢ \hat{a} $\neg \hat{a}$, ¢t his fault that he was a conduit, that heà had the bad fortune to have the blood of an Immortalà Â Warrior in his veins, that heââ ¬â,¢d been contacted. Sheââ ¬â,¢d giveà the good olââ ¬â,¢ boy a little fun, in his final minutes. A A He could die now or later, but he was going to die. A A There was a little bit of light coming through the A A tinted windows, just enough for him to see her face, A A though of course she could see his very well whether there A A was light or not. She smiled at him. She \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢d been turned in \tilde{A} \hat{A} 1956, which made her all but a fledgling in the

vampireà world, but being so youngâ⠬⠕relatively speakingâ⠬⠕meantà Â that she still clearly remembered what it was like to beA A human, with all the flirting and drama that humansà Â attached to sex. She still enjoyed some of those silly rituals.Ã Â With vampires, it was fuck if you felt like it, and that A A was about as complicated as it got. Not that vampiresà didnââ ¬â,,¢t make great loversâ⠬⠕there was a lot to be said forà both practice and stamina \tilde{A} ¢ \hat{a} $\neg \hat{a}$ •but humans could be so \tilde{A} \hat{A} sweet, both figuratively and literally. Why give that upA A when she could have both? SheA¢a ¬a,,¢d actually heard thatA A some of the really, really old vampires eventually gave upA A sex completely, but she couldnA¢a ¬a,¢t imagine that. She sure as \tilde{A} \hat{A} hell wouldn $\tilde{A}\phi\hat{a}$ $\neg \hat{a},\phi$ t ever make that sacrifice. \tilde{A} \hat{A} Hell, she $\tilde{A}\phi\hat{a}$ $\neg \hat{a},\phi$ d had to give up ice cream and sunbathing, A A and that was enough sacrifice for her. A A The conduit was exhausted, robbed of sleep night after A A night by his warrior trying to contact him, but he wasn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢ $t\tilde{A}$ \hat{A} so tired that he couldn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t appreciate the view as Melody \tilde{A} \hat{A} shimmied out of her clothes. When she was entirely A A naked she took his hand and guided it to her breast, A A where he held it as she slowly peeled his clothes off and A A trailed her mouth over each section of his body as she \tilde{A} \hat{A} bared it. The anxiousness she \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢d seen in him for the pastà Â three days faded, replaced by desire.Ã Â She straddled him, took him in, closed her eyes and A A enjoyed the feel of coming together. Their position was A A awkward, thanks to the small space. His bed wouldââ ¬â,,¢veà been better, but he didnââ ¬â,,¢t want to go home. Home wasà no longer a sanctuary for him, poor thing.à Home was where contact with oneââ ¬â,¢s warrior began, A A and sometimes ended. At home, alone, safe from uninvited A A visitors and the turmoil of public places, the conduits A A began to see or hear or simply sense the presence A A of their warriors. No wonder the poor boy had been A A sleeping on friends A¢a ¬a,¢ couches and in this very truck, A A where he could have a few hours of peace. A A The sex was fast and sweaty and satisfying for both. A A There was a touch of awkwardness that was almost A A endearing. He was manly but also shy. He wasn $\tilde{A}\phi\hat{a} - \hat{a}, \phi t$ a \tilde{A} \hat{A} smooth operator with the ladies and never had been. If \hat{A} \hat{A} she hadn \hat{A} ¢ \hat{a} $-\hat{a}$, ¢t made the first move, he never would \hat{A} ¢ \hat{a} $-\hat{a}$, ¢ve spoken \hat{A} \hat{A} to her. A A When they finished, for a long moment they lay awkwardly A A tangled, sweating and sated. Melody lifted herà head, shook back her thick blond hair, and looked himà Â in the eye. Even in the dark, he saw her . . . and she sawA A him. She caught his gaze, pushed, and his mind wasà hers. She was charmed by how easy and pliable heà was. Sheââ ¬â,¢d be tempted to keep him for a while, if she \tilde{A} \hat{A} didn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t have a job to do. \tilde{A} \hat{A} She extended her fangs, but because she \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢d already \tilde{A} \hat{A} established a contact with his mind, he wasn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t alarmed. A A She already had control, and he knew what she wanted. A A Obediently he tipped his

head to the side, exposing A A a long, strong, salty throat. A A Melody lowered her head and bit down, breaking theà skin, opening a vein. She couldnââ ¬â,¢t drain him; sheââ ¬â,¢d beenà ordered to be cautious when killing the conduits, soà there wouldnââ ¬â,¢t be a trail of bloodless bodies that might A A lead the humans to the center of power and blow the A A whole revolution thing. He tasted so good, as if the A A basic sweetness of his nature flavored his blood. A A Melody hummed a little in delight, and because she A A was a generous person she reached down and stroked Â his penis while she fed. He gave a little moan and Â pumped his hips against her hand. \hat{A} \hat{A} \hat{A} \hat{C} \hat{C} \tilde{A} ¢â ¬Å"Isn \tilde{A} ¢â ¬â,,¢t it good? \tilde{A} ¢â ¬Â• \tilde{A} \hat{A} Without waiting for an answer she drew deeply of hisà blood, lost in the moment, in the lovely feel of his bodyà Â and the taste of his life force, in the energy that coursedA A through her as she fed.A A Finally she made herself stop drinking; she didn¢â ¬â,,¢t Â dare take any more. With lingering movements of her Â tongue she licked his throat, waited for the healing to A A kick in and close the bite. That done, she placed a A A strong hand over his mouth and nose, cutting off his A A air. She hated that she had to use this method to killà when her own appetite was so much more efficient. Ità Â just made no sense to waste that much food. But sheà was a good soldier, so she did what sheââ ¬â,,¢d been told.à He didn¢â ¬â,,¢t struggle, except for a brief twitch. She keptà his nose and mouth covered until his heart had ceased to A A beat. Her job done, Melody patted him on the head, then A A touched his cheek. At least his last few minutes alive hadA A been happy ones. She found some comfort in that \tilde{A} \hat{A} thought. She was \tilde{A} $\hat{\phi}$ $\hat{\alpha}$ $\hat{\phi}$ $\hat{\alpha}$ $\hat{\phi}$ that \hat{A} \hat{A} thought. She was \hat{A} $\hat{\phi}$ \hat{A} \hat{A} More than that, she was better. Better than sheââ ¬â,¢d everà been before, better than humans, who knew so little and A a existed for the benefit of those like her. A A She took her time putting on her clothes, watching A A through the tinted glass windows as the last of the bar A A patrons came out, got in their various vehicles, and left. A A They didnA¢a ¬â,,¢t pay a bit of attention to the truck. He¢â ¬â,,¢d left Â it parked here a few nights lately, getting rides with Â friends when he was too drunk to drive, or sleeping in A A the backseat. A A When the last patron left and the neon beer sign wentà out, Melody climbed out of the truck, closing the doorà Â behind her.Ã Â It bothered her that the conduit hadnââ ¬â,,¢t fought. Evenà though heââ ¬â,,¢d been glamoured, his body should haveà struggled for air. Maybe sheââ ¬â,,¢d taken too much. She didn \hat{A} ¢ \hat{a} $\neg \hat{a}$, ¢t \hat{A} \hat{A} have the kind of control an older vampire possessed, \hat{A} \hat{A} but that wasn¢â ¬â,,¢t her fault, was it? SheĀ¢â ¬â,,¢d get older . . .à eventually. But if sheĀ¢â ¬â,,¢d taken too much blood and someA backcountry coroner got suspicious, sheA¢â ¬â,,¢d be in trouble. A A It really would be best if there wasnA¢a ¬a,,¢t enough leftA A of the body for any

medical examiner to study. A A The good thing was, she had a natural talent that had A A come to life when sheââ ¬â,¢d been turned, one that came inà very handy when she wanted to hide some evidence. A A She lifted her hand, applied some concentration as sheA A stared at her palm, and a small lick of flame flared to \tilde{A} \hat{A} life there. She didn \tilde{A} ¢ \hat{a} $\neg \hat{a}$, \not et feel any pain or heat from the A A flames, because it was her fire. A A She stood back and with a flick of her hand sent that A A flame toward the pickup. It caught, licked across the seat, A A and with her mind she sent it racing through the cab, A A where it engulfed the body. Stepping farther away, she A A drove the fire onward, sending it in search of the gasA A tank. That took some doing, because she really wasnââ ¬â,,¢tà sure where gas tanks were located, but by the time sheà struck pay dirt¢â ¬â •so to speak¢â ¬â •she was far enough awayà that the explosion didnââ ¬â,¢t do much more than ruffle herA A hair.A A han came running out of the bar, alarmed by theà noise of the explosion. Taken aback, Melody staredà at him. Sheââ ¬â,,¢d completely forgotten about the bartender. A A The older man raced toward her. A¢a ¬A"Dear God, A A what happened?â⠬• he yelled as he fumbled for the cellà Â phone in his pocket.Ã Â Dammit! Under most circumstances Melody wouldnââ ¬â,,¢tà have cared that her presence had been noticed, but herà orders were clear: donââ ¬â,,¢t draw attention to what wasà happening, or else. She didn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t want to find out what \tilde{A} \hat{A} \tilde{A} ¢ \hat{a} $\neg \hat{A}$ "or else \tilde{A} ¢ \hat{a} $\neg \hat{A}$ • meant, though she had a very good idea. The A A last thing she wanted was to make Sorin unhappy. She A A had to handle this, and do it fast. A A In the blink of an eye she moved in front of the bartender, A â startling him. A¢â ¬å"WhaA¢â ¬â •A¢â ¬Â• he began, already stepping A â back, but she caught his gaze and he was hers. Sheà Â saw the reflection of the fire in his eyes, then she was inà his mind.à ââ ¬Å"I wasnââ ¬â,,¢t here,â⠬• she said calmly. ââ ¬Å"That poor boyââ ¬â,,¢sà been sleeping in the back of his truck lately, and youà knew that but didnââ ¬â,,¢t mind.â⠬•à Ã¢â ¬Å"I didnââ ¬â,,¢t mind,â⠬• the bartender echoed. à ââ ¬Å"Poor fella, â⠬• Melody continued. ââ ¬Å"He hasnââ ¬â,,¢t beenà himself lately. Heââ ¬â,,¢s been moping around about theà divorce, and he just seemed so sad. $\hat{A}\phi\hat{a} - \hat{A}\bullet$ Slowly she walked \hat{A} \hat{A} away, and when she was out of the bartenderââ ¬â,,¢s line ofà sight she released his mind.à She watched as he fumbled with his cell phone, listenedà to the frantic call. ââ ¬Å"Send the fire truck, the ambulance, \tilde{A} \hat{A} whatever you got! \tilde{A} ¢ \hat{a} $\neg \hat{A}$ • \tilde{A} \hat{A} Walking down the side of the narrow road in the A A darkness, Melody smiled to herself. That had been fun. A A Another conduit would soon be hers. As soon as she \tilde{A} \hat{A} reported in that she \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢d succeeded here, she \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢d be givenà Â another assignment. How would she kill the next one?Ã Â Knife, pillow, gun, a shove off

the side of a cliff . . . itA Â all depended on who and where. She had to be moreA Â careful about taking too much blood next time, A A though, but when the rebels succeeded and vampires \tilde{A} \hat{A} ruled, she would \tilde{A} $\hat{\phi}$ \hat{a} \hat{a} , $\hat{\phi}$ t ever have to be careful again. \tilde{A} \hat{A} Cool, she thought. Very cool. A A Chapter One The Scottish Highlands A A There was something special about Scotland in the A A summer that made it one of his favorite places in the A A world. It was more than the rain and clouds and heavy A A mist that called Luca Ambrus here; it was the taste of A A what had come before, a palpable history that flowed A A so vividly in his memory that sometimes he could closeA Â his eyes and hear the voices of people long gone, feelA Â the impact and vibration of a sword in his hands during A A countless battles, smell the peat fires. Heââ ¬â,¢d actuallyà been born in Greeceâ⠬⠕his olive skin gave away hisà Mediterranean heritageâ⠬⠕but heââ ¬â,¢d spent many moreà years in Scotland than he had in Greece and was far A A more at home here. Greece was too hot and sunny; heà Â much preferred cool, misty, foggy places.Ã Â There were times when he craved the noise and movement A A and excitement of a city, but more often he preferred A A his own company and his own thoughts. If heà hadnââ ¬â,¢t been comfortable within himself, heââ ¬â,¢d have gone A A mad many centuries ago. But he was comfortable and A A grounded, to use the current phrasing, so he was veryA A content to pass days, weeks, at a time without seeingA A another soul. The trick was to live in the moment, to A A enjoy each successive year for itself, for the changes that A A came both slow and fast, and for the things that never A A changed. He enjoyed life, and didnââ ¬â,,¢t necessarily requireà companionship.à His home here in the Highlands was an elegant cottageà with all the modern conveniences, far away fromà Â the larger cities. He saw no need to sacrifice his comfortA Â for solitude when he could have both. Once heââ ¬â,,¢dà have had to choose between them, but no longer. Timesà changed. What good was living through the centuries if \tilde{A} \hat{A} he couldn \tilde{A} ¢ \hat{a} $\neg \hat{a}$, ¢t enjoy all that was offered? \tilde{A} \hat{A} The things he \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢d seen come into being during the past \tilde{A} \hat{A} hundred and fifty years! Even he, who was seldom surprisedA A by anything, had watched with bemusement asA A change piled on change. Electric lights, telephones, A A automobiles, airplanes A¢a ¬â •it was almost too much toà take in, though he enjoyed them very much. He lovedà Â movies and television, the travel, the thrill of driving aA A fast car or getting on a plane and a few hours laterA A being thousands of miles away. The humans had even A A managed to go into space; the audacity of such fragile A A creatures was either valiant or incredibly stupid, and A A despite two millennia studying them he hadn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t yet \tilde{A} \hat{A} decided which it was. Both, perhaps. \tilde{A} \hat{A} He had money, and he had time. If he was in the A A mood for city life he stayed in his place near Seattle, A A Washington.

When he wanted peace and quiet, he came A A here. In a while he would tire of the quiet and move on, but for now . . . for now the solitude was as necessary Â to his survival as blood. Immortality didnââ ¬â,,¢t come withoutà a price.à Still, he never stayed in one place very longâ⠬⠕ââ ¬Å"longâ⠬•à being a relative term. A month might seem long toà some, but to him it was the blink of the eye, a heartbeat.à It wasnââ ¬â,¢t in his nature to nest. He was a hunter at A A heart, and he enjoyed the thrill of the chase even more than the inevitable end when the prey was his. One day \hat{A} \hat{A} soon he would feel the call \hat{A} \hat{c} \hat{c} \hat{c} \hat{c} or receive an actual callâ⠬⠕à and in a flash he would leave behind his beloved solitudeà Â to lose himself once more in the blood hunt. A A When twilight came, Luca left his cottage and A A walked out into the cool fresh air. This was the time of A A day he liked best, when the fading light and gathering A A darkness accentuated the aloneness he sometimes A A craved as if it were as tangible as the earth he walkedA A upon. He took a course that led him through a fragrant Â meadow, with the craggy mountains looming over him Â and deepening the shadows. His boots cut slowly A A through the tall grass. There was no hurry in his movements, A A no need beyond the moment. He was old A A enough that he no longer had to feed very often, unlessà he was burning a lot of energy, which allowed him toà Â escape from the world for days, even weeks, at a time. A A The hunger, the need, would eventually come, and \tilde{A} \hat{A} when it did he would feed. \tilde{A} \hat{A} But he wasn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t hungry tonight. Tonight he was satisfied A A to walk these stark, dramatic hills and remember A A the battles that had been fought here. There was a lotA Â to remember, because there had been so many battles,A Â so many wars. Easily destroyed or not, his human fellowA Â warriors had thrown themselves into war with A â such complete lack of caution that he could only marvel. A â It wasn A¢â ¬â,¢t as if they didnââ ¬â,,¢t know they were mortal;à they did. And still they fought, often long past the pointà Â where sanity or common sense should have kicked in.Ã Â Even after centuries of watching them, preying on A A them, sometimes fighting beside them, humans could A Still bemuse him. He didn¢â ¬â,,¢t know exactly how old he was; he knew he Â was over two thousand, but he couldn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t pin down a \tilde{A} \hat{A} year or even a birth date, if he \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢d ever known it at all.à Vampires in general werenââ ¬â,,¢t big on calendars, evenà assuming his mother had known the date he \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢d been \tilde{A} \hat{A} born. He \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢d kept track for a while, the first four or fiveà hundred years, but after that heââ ¬â,,¢d lost interest becauseà the number wasn¢ā ¬â,,¢t important; after all, no one wouldĀ Â be throwing a birthday party for him. All that wasà important was his personal power, which had grownà Â with each passing century and would continue to A A increase, until now the number who equaled him in A A some ways could be

counted on one hand. In power lavà safety, and one of the first lessons heââ ¬â,¢d learned was toà always watch his back, even with his own kind, whichà was why he didnââ ¬â,¢t live among them. A A He had everything he needed here. In a lot of ways he A A was more comfortable with humans than he was with A A the kindred, because he could relax with humans. Heà didnââ \neg â,,¢t fear them, didnââ \neg â,,¢t have to be wary of them. Theyà Â were puny in so many ways, a lot of fun in others, and A A best of all, they never remembered him. A A A small village lay just over the farthest hill. When he A A had to feed, he went there. And when he left after feeding, \tilde{A} \hat{A} the people he \tilde{A} ¢ \hat{a} $\neg \hat{a}$, ¢d met, even those he \tilde{A} ¢ \hat{a} $\neg \hat{a}$, ¢d fed upon, \tilde{A} \hat{A} immediately forgot heââ ¬â,,¢d been there at all. Every time heà entered the village, the residents greeted him as a new Â visitor. That was his power, his curse, his salvation: noà one remembered him. When he passed by, he passed \hat{A} and of their lives as if he \hat{A} \hat{c} and \hat{c} does never been there at all. Onlyà Â the strongest of his own kind could resist the power,Ã Â which meant he could come and go as he wished. To beA Â forgotten as soon as he was out of sight was as good asA Â being invisible, and gave him a freedom that other A A vampires could only dream of having. A A He was engrossed in one particularly delicious A A memory when the portable satellite phone in hisà pocket rang. He cursed under his breath. The one thingà he didnââ \neg â,¢t enjoy about modern life was the ease of communication. A A In the old days, the Council would have had to send him a written summons, which, depending A A on where he was, could take months to reach him. Notà that the length of time mattered, because no matterà Â how long a rogue vampire had to go to ground, Lucaà Â always found his prey.Ã Â Dammit. His position with the Council required that \hat{A} \hat{A} he always be available, but he \hat{A} ¢ \hat{a} $-\hat{a}$,¢d just completed an \hat{A} \hat{A} assignment and he needed to get away from the irritation A A he felt around crowds of people. Normally A A months, sometimes years would pass before the A A Council summoned him again, but the call had to beà from them because few others knew how to reach him.à He didnââ ¬â,,¢t blithely give out his number, not even to the A A older, stronger vampires who could remember him. A A What was the point? Vampires didn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t call to chat. \tilde{A} \hat{A} Besides, he made other vampires nervous. Even most of A A the Council members, who were powerful in their own A A rights, were wary of him. And as far as he was concerned, \tilde{A} \hat{A} that was a good thing. \tilde{A} \hat{A} Politics didn \tilde{A} ¢ \hat{a} $\neg \hat{a}$, ¢t interest him at all, so his involvement A A with the Council wasn A¢a ¬a,,¢t entirely logical. The A A ruling branch of vampire society was as beset by A A back-stabbing, deal-brokering, lobbying, and specialà interests as any government yet devised by humans. Butà Â he had skills others did not, and for more years than he \tilde{A} \hat{A} could count he \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢d been an integral part of the workings ofà Â the Council. His assignments gave him a sense of purpose,Ã Â and besides, even this place

bored him after a while. A A Individually and collectively the Council had offered A A him a more permanent position, a seat at the table of \tilde{A} \hat{A} power, but he \tilde{A} ¢ \hat{a} $\neg \hat{a}$, ¢d turned them down so many times heà Â thought they should long since have stopped asking.Ã Â The Council members were as heavily protected as any A A American president, and heA¢a ¬a,,¢d go stir-crazy if he had toà Â live all but imprisoned in the Council headquarters.Ã Â Their quarters were luxurious, but a prison was still aA A prison, no matter how high the thread count on theA A sheets.A A They would keep calling until he answered the A A phone. Annoyed, he pulled it from his pocket andà glanced at the number. His eyebrows rose as concernà Â replaced his annoyance, and he thumbed the talk button. à ââ ¬Å"Ambrus, â⠬• he said. Hector wasnââ ¬â,,¢t the member ofà the ruling Council charged with assigning Lucaââ ¬â,,¢s missions,à but he was an old friend and he wouldn \hat{A} ¢ \hat{a} $\neg \hat{a}$,¢t call \hat{A} \hat{A} unless it was important. In the more than six hundredà years theyââ \neg â,¢d known each other, theyââ \neg â,¢d also learned toà Â trust each other, something important in the vampire A A world. Together they A¢a ¬a,,¢d seen a lot of changes in the \tilde{A} \hat{A} vampire community. They \tilde{A} ¢ \hat{a} $\neg \hat{a}$, ¢d kept the peace, and they \tilde{A} \hat{A} had protected the secret of their very existence, using A A whatever methods were necessary. à Hector hadn ââ ¬â,,¢t been a young man when he ââ ¬â,,¢d been à turned, and though he was strong he wasn $\tilde{A}\phi\hat{a} - \hat{a}_{,,\phi}$ t at a physical \tilde{A} \hat{A} peak, the way Luca was. Hectorââ ¬â,,¢s strength was inà his mind, his shrewdness and his control. à ââ ¬Å"Thereââ ¬â,,¢s a serious problem,â⠬• Hector said withoutà preamble. It wasnââ ¬â,,¢t like him to be so abrupt. He wasà almost twelve hundred years old, so he \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢d learned there \tilde{A} \hat{A} was almost never a need for haste or impatience. A Â Luca turned to walk back toward his cottage. AA Â problem for the Council meant that, like it or not, he \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢d \tilde{A} soon be on his way to D.C. \tilde{A} ¢ \hat{a} $\neg \hat{A}$ "What sort of problem?â⠬•à Hector hesitated. ââ ¬Å"I think thereââ ¬â,,¢s a traitor on theà Council.â⠬•à Luca stopped in his tracks. â⠬œA traitor . . . How?â⠬• It Â was a serious accusation, but not one he could easilyà dismiss, simply because this was Hector. Treason in the Â vampire world meant one thing: a vampire doing something Â stupid that could result in exposure to the humans. A A Still, exactly what did A¢a ¬A"traitorA¢a ¬A• mean? Attacks againstà the Council didnââ ¬â,,¢t count as treason, because Councilà members, like all the other vampires, had to survive byà Â their own strength and wits. If they couldnââ ¬â,,¢t manageà that, then they were dead, and the stronger steppedà into their places. à ââ ¬Å"A rebel faction has formed. Their position is that à they ââ ¬â,,¢re tired of living in the dark, that vampires are A A superior to humans A¢a ¬a •which is true A¢a ¬a •so they

want to A A overcome the humans and take over the government. A A One of the Council has joined them. Iââ ¬â,¢m certain of it,à but I havenââ ¬â,¢t been able to find out who.â⠬•Ã Â Luca grunted, but otherwise restrained his reaction.Ã Â If Hector was right \tilde{A} ¢ \hat{a} ¬ \hat{a} •and he almost always was \tilde{A} ¢ \hat{a} ¬ \hat{a} •then \tilde{A} \hat{A} this was definitely a serious situation. Periodically A A someone or a group of someones would decide it was A A outrageous that vampires had to hide their existence, and A A they would have to be dealt with before they couldà expose the entire race. Never before had a Council memberà Â joined in that idea, though, which immediately made A A the situation more dire. A A With some common sense and caution, vampiresà could live in relative peace because humans didnââ ¬â,,¢tà believe they were real. The Council made the rules that A A ensured that peace, and whenever any vampire didn¢â ¬â,,¢tĀ Â obey, well, that was where Luca came in. A vampireĀ Â who fed and killed indiscriminately risked them all, so A A Luca was called in to handle the problem. A A Because he could come and go pretty much as heà Â wanted, and no human remembered him, there were noà repercussions. Not only that, he was old enough andà Â strong enough that he could go out in daylight, which A A meant most vampires were helpless against him. He A A executed them during the day only under the mostà Â extreme circumstances, such as if the vampire had goneà Â totally mad and any delay was too dangerous.Ã Â Otherwise, he faced his prey and at least gave them theà opportunity to fight. They never wonâ⠬⠕obviously, or he wouldnââ ¬â,,¢t still be hereâ⠬⠕but the exercise gave him fightingà practice. Executing a sleeping vampire wasnââ ¬â,,¢t anyà fun at all.à Ã Â He could almostâ⠬⠕almostâ⠬⠕have some sympathyà Â with the rebels. There were many vampires who consideredà all humans as far beneath them as a cow or aà Â chicken might be to those humans. They were necessary A A for nourishment, but to be forced to hide from A A them out of fear, to be made to cower in the dark . . . \tilde{A} \hat{A} some vampire egos couldn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t handle it. Luca didnââ ¬â,¢t quiteà see things that way. For one, he didnââ ¬â,¢t cower. For Â another, he had fought beside humans, made love to Â human women, enjoyed their progresses and inventions, A A and sometimes laughed at their actions until heA A was exhausted and his ribs ached. Humans were endlessly A A entertaining, if nothing else.à ââ ¬Å"Iââ ¬â,,¢ll be there tomorrow,â⠬• Luca said as he resumed hisà distance-eating stride.à ââ ¬Å"Hurry,â⠬• Hector urged, and his voice changed as hisà power surged, his tone and cadence sliding into theà Â rhythm that said he was seeing the future. ââ ¬Å"Battle is inà the air. I smell it. I can almost touch it. Death is coming.à Death is coming for us.â⠬• With a click, the call disconnected.Ã Â The powerful vampire sounded

frightened, which A A alarmed Luca even more. Death, Vampires lived with A A death, but some clung to their new version of life with A A an almost panicked intensity. Others, after living for soà many years, actually yearned for an end and wouldà Â choose to die, but most didn \tilde{A} ¢ \hat{a} $\neg \hat{a}$, ¢t. Hector enjoyed life, \tilde{A} \hat{A} even after all his years, but he wasn \tilde{A} ¢ \hat{a} $\neg \hat{a}$, ¢t afraid of death. A A What he feared was something bigger: the collapse of A A the wall of ignorance that protected the vampires from A A the humans. A A Luca reached his cottage and began packing, making A A phone calls and arrangements of his own as he gathaered what he needed. If Hector felt death was coming \hat{A} \hat{A} for them, as he \hat{A} ¢ \hat{a} $\neg \hat{a}$,¢d said, then their world was in great \hat{A} \hat{A} danger and uncertainty. A A Luca had many strengths and powers; as a rare blood A A born, conceived and born to a vampire mother and A A father, he was much stronger than those who A¢a ¬a,¢d beenà turned to the life. Prophesy, however, wasnââ ¬â,,¢t one of thoseà powers. Despite the surety in his tone, Hectorââ ¬â,,¢s gift ofà prophecy was relatively mild, and while Luca certainlyà believed Hectorââ ¬â,¢s prediction, he also knew there was justà as much that Hector didnââ ¬â,¢t see.à Heââ ¬â,¢d have liked more time in Scotland, but as he preparedà for the trip he felt his heartbeat increasing inà Â anticipation for what was to come. If there was a huge \tilde{A} \hat{A} battle, well, he had \tilde{A} \hat{c} \hat{c} \hat{c} been in a proper battle in a very \tilde{A} \hat{A} long time.à Washington, D.C.à Chloe Fallon had just drifted off to sleep when theà Â image popped into her subconscious: a long, thick, A A blond braid hanging right in front of her face. That wasà all, just a braid, but so real she felt as if she could reachà Â out and touch it. The shade of blond was darker and A A more golden than her own, and it seemed to be streaked A A with several shades. Had to be a natural color, herà Â dreaming mind thought; it would take forever for aà Â hairdresser to work all those different colors in.Ã Â She started awake, absurdly surprised to find herself \hat{A} \hat{A} alone in her own bed. That was the weird thing \hat{A} \hat{c} \hat{a} $-\hat{a}$ \hat{A} \hat{A} one of the weird things, anyway. She didn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t feel as if \tilde{A} \hat{A} she was truly alone. She almost felt as if all she had \tilde{A} \hat{A} to do was roll over and she \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢d find the person attached \tilde{A} \hat{A} to the braid lying there beside her. Unable to A A stop herself, she lifted her head to take a quick glance A A at the other pillow. Nope, no one there. Good. Sheà Â had the bed to herself, as usual.Ã Â She flopped over on her back and stared at the darkA A ceiling. Of all things to dream about . . . a braid. Sheà kept having the same dream, over and over, about aà Â damn braid. Maybe she had some deep-seated desire to A A be a hairdresser, though she didnA¢a ¬a,,¢t think so. She didn $\hat{A}\phi\hat{a} - \hat{a}_{,,\phi}\hat{A}\hat{A}$ even like spending much time on her own hair, which $\hat{A}\hat{A}$ was why she got the most maintenance-free cut sheà could, short of shaving her head. So what did it meanà Â that she kept dreaming about a braid? There had to be A A a person attached to the hank of hair, but

sheââ ¬â,,¢d neverà seen a face. She didnââ ¬â,,¢t even know for sure if the braidà belonged to a man or a woman. Her first thought hadà been ââ ¬Å"woman,â⠬• since long hair wasn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t exactly in fashion \tilde{A} \hat{A} for men, but she got a sense of power when she wasA A in the presence of the braid. It was definitely a strangeA A thing to be obsessing over.à The braid dream had been coming for several weeksà now. At first sheââ ¬â,,¢d decided stress was the cause. HerA A job and college classes were both demanding. Sheà enjoyed them, but they didnââ \neg â,¢t leave much time for aà Â social life. Relaxation, laughter, fun . . . sheââ ¬â,,¢d had toà put them all aside, but now she was out of college forà the summer and thought a break would cure all her ills.à Not.à It didnââ ¬â,,¢t make sense. All she had to worry about right A now was her job A¢a ¬a •assistant manager of an upscaleà restaurant in Georgetownâ⠬⠕and her parentsââ ¬â,¢ plannedà visit at the end of August. She had to get the guestà Â room in order before they arrived; thankfully she had aà couple of months to get ready. That spare room wasà Â presently a cluttered storage space, but it would only A A take a few hours to turn it into a decent guest room. A A Okay, it would take longer than that, but it was doable. A A Yes, she was obsessing a little over the pending visit. A A What sane, single woman of a certain age didnA¢â ¬â,¢t obsessA A when her parents, who couldnââ ¬â,,¢t understand why theirà only daughter wanted to live so far away, came to visit?à Her mother couldnââ ¬â,,¢t quite pull herself out of her protectiveà mode, even though Chloe was scaring thirty and A A was determined to live a normal life despite having anà aortic aneurysm. The way she saw it, the aneurysm wasà Â small and stable, and might never change or grow to aA A dangerous size. The way her mother saw it, however,A A was that Chloe had a ticking time bomb in her chestà Â and could die at any moment. Finding a balanceà between those two viewpoints wasnââ ¬â,,¢t easy, thoughà Chloe suspected that, if their positions were reversed, \hat{A} \hat{A} she \hat{A} ¢ \hat{a} $-\hat{a}$, \hat{c} d feel exactly the same as her mother did. A A She growled at the ceiling, disgruntled at being A A awake and stressing over something that wouldn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t happen \tilde{A} \hat{A} for a couple of months. She loved her parents. \tilde{A} \hat{A} They loved her. She could handle being coddled for aA Â few days.A Â But, dammit, the latest encounter with the ownerlessà braid had left her wide awake. Sighing, Chloe rolledà Â out of bed and headed for the kitchen. A glass of milkà would help; sheââ ¬â,,¢d rather have hot chocolate, but chocolateà had caffeine, so sheââ ¬â,¢d settle for the milk. Sheà could sleep late in the morning. She could sleep as lateA A as she wanted, because she worked the evening shift atà the restaurant.à After pouring herself some milk, she leaned againstà Â the kitchen cabinet while she drank, and stared at herA A blurry reflection in the window of the

microwave. A A Huh. Maybe there was a little bed-head going on there. A A which was nA¢a ¬a,¢t fair considering sheââ ¬â,,¢d been in bed maybeà fifteen minutes, tops. She wondered how sheââ ¬â,,¢d lookà with really long hair, like that braid. She kept her hairà just long enough that she could pull it back, sleek and neat, to keep it out of her way while she worked. Rightà Â now she just looked kind of mussed and messy, in soft, A A gray cotton shorts and a matching sleeveless tee, butà Â what kept pulling her attention was her own baby soft,Ã Â blond hair. Dammit, forget about the hair! A A Impatient with the dream and with hair in general, A A she moved so she couldnââ ¬â,,¢t see her reflection in theà microwave and distracted herself by looking around for Â things she needed to do before her parents came to visit. Â Â All in all, she was very happy with what she saw. Her Â rental house was small, but she loved it. A friend of a Â friend had moved to California, but hadn¢â ¬â,,¢t been willingĀ Â to let go of the little gem, though property values in the A A district were so high surely there would have been a A A hefty profit in selling. A A Still, she couldnA¢a ¬a,,¢t blame them. The house was wellmaintainedA A and the landscaping was great. It was the A A perfect size for her: two bedrooms, two baths, a decentsizedà living room, and a kitchen. It was practicallyà Â within spitting distance of a Metro station. What else A A did a single woman need? A A The kitchen was square and well-equipped, and hadA A been recently updated. Chloe liked to cook when sheA A had the time, so a decent kitchen was a necessity. Sheà kept hoping her landlords would decide the move toà Â California was permanent and they \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢d offer to sell her the \tilde{A} \hat{A} house \tilde{A} ¢ \hat{a} $\neg \hat{a}$ •she \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢d told them she was interested, basically calling A A dibsA¢a ¬a but so far they showed no signs of giving ità up. Just as well. She needed to save more money for aà Â down payment. The house was small, but this was aA A very desirable neighborhood and at the upper limit ofA A what she could afford. A A Her parents would freak if she bought a house in the A A D.C. area. They kept thinking that when was she was A A finished with school she A¢a ¬a,,¢d come to her senses and move Â home to Atlanta. After all, there were plenty of restaurants there that needed managers, as theyA¢â ¬â,,¢d told her timeA and time again. The truth was, Chloe loved living here.A She loved the people, her job, the energy of the city. Sheà had friendsâ⠬⠕even if her social time was limited whenà school was in sessionâ⠬⠕and she loved this house.Ã Â Maybe one day she \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢d have the man to go with it, \tilde{A} \hat{A} even kids if they decided to go that route and her doctorA A agreed that the risk was acceptable, but for now sheA A liked being independent. A few of her friends felt as if A A they had to have a guy in their lives or else they were A A at loose ends, incomplete somehow, missing out on life. A A Not Chloe. She valued her alone time and her independence. A A If and when the right man came into her life, A A that would be great. Until then,

she wasnââ ¬â,¢t looking, andà she wasnââ ¬â,¢t desperate. Sheââ ¬â,¢d watched too many of herà friends end up with losers when they thought theyà couldnââ ¬â,¢t snag anyone better. A time or two, she $\tilde{A}\phi\hat{a}$ $-\hat{a}_{\parallel}\phi$ d fallen \tilde{A} \hat{A} into the loser trap herself. Okay, three times, before she \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢d \tilde{A} \hat{A} come to her senses. She wasn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t going to settle for Mr. \tilde{A} \hat{A} Right Now because she was afraid Mr. Right wasnââ ¬â,,¢t everà going to materialize.à Chloe had often thought that if she had one major A A characteristic, it was that she was level-headed. Wow,à wasnââ ¬â,¢t that impressive? But she made a great assistantà manager, and one day sheââ ¬â,,¢d make a great manager,à with an MBA, her level head, and her organizationalà skillsâ⠬⠕which did not, she admitted, extend to her guestà Â room. Sheââ ¬â,¢d get there, though.à She had the whole summer ahead of her to get theà spare room in order, get her responses thought out and A A lined up for the inevitable arguments her parents would A A fire at her, and get rid of the weird braid that had A A invaded her dreams. In the bright light of the kitchen, A A that last detail sounded downright ridiculous. Who let A A a dream about hair keep her awake at night? Maybeà Â she subconsciously wanted to dye her hair. The color of \tilde{A} \hat{A} the braid really was nice. Maybe she \tilde{A} ¢ \hat{a} $\neg \hat{a}$, ¢d seen someone \tilde{A} \hat{A} on the street with a long braid like that one and sheââ ¬â,¢dà mentally filed it away without realizing it.à But what about the sensation that she wasn $\tilde{A}\phi\hat{a} - \hat{a}_{,,\phi}t$ alone? \tilde{A} \hat{A} Maybe she did need to seriously consider looking for A A that elusive permanent man, even though she wasn A¢a ¬a,,¢t A Quite ready to settle down. She could start cruising barsà Â until she found a willing and acceptable manâ⠬⠕nope,à wasnââ ¬â,¢t going to happen. Her level-headedness said thatà kind of behavior was both sad and dangerous. à Sheââ ¬â,,¢d have to take up jogging again, dammit. Sheà should have been doing it all along, but she simplyà hadnââ ¬â,¢t had the time. Now that she was out of school \tilde{A} \hat{A} for the summer, she didn \tilde{A} $\hat{\phi}$ $\hat{\phi}$ $\hat{\phi}$ $\hat{\phi}$ thave that excuse. Everyone inà Washington jogged, so sheââ ¬â,¢d get out and join the herd.à Ã¢â ¬Å"Chloe ... \tilde{A} ¢â $\neg \hat{A}$ • \tilde{A} \hat{A} The voice didn \tilde{A} ¢â $\neg \hat{a}$,¢t just surprise her, it shocked her like $a\tilde{A}$ \hat{A} slap to the face. Her half-full glass of milk slipped from A A her hand and shattered on the floor, sending glass andà Â milk shooting across her bare legs and the tile floor.Ã Â Wildly she looked around, certain that someone was A A there. The voice, that hoarse whisper of her name, had A A been right there. The sound had been directly in her ear. A A No one. Nothing. She was completely alone. A A She began shaking. She wasn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t asleep, she couldn \tilde{A} ¢ \hat{a} $\neg \hat{a}$,¢t \tilde{A} \hat{A} write the whisper off to dozing in the middle of the A A kitchen while she stood there drinking milk and making A A plans to drag her running shoes out of the closet. A A The voice had been real, as real as the mess she had toà clean up, as real as the thin trickle of blood where aà Â sliver of glass had cut her

leg.Ã Â After a minute she controlled her ragged breathing.Ã Â and her panicked senses began settling down. Stepping A A carefully to avoid the broken glass that surrounded her, A A she concentrated on cleaning up the mess, focusing on \tilde{A} \hat{A} the task so she didn \tilde{A} \hat{C} \hat{C} \hat{C} \hat{C} \hat{C} of anything else. ByA A the time every speck of milk and glass had been cleanedA A up and disposed of, she could take a deep breath andà let it go. She hadnââ ¬â,¢t really heard anything; her imagination \hat{A} \hat{A} had gotten the best of her, that was all \hat{A} \hat{A} It was either that or admit that she was losing her Â mind, and pragmatic Chloe couldnĀ¢â ¬â,,¢t allow herself to goà Â there.Ã Â Across the city, Hector paced in his private quarters.Ã Â His ability to read energies, to see bits and pieces of the A A future, had grown in his years as a vampire, but heà couldnââ ¬â,,¢t see everything. What use was such an incompleteà ability in a time of turmoil? How did he benefit Â from knowing someone close by was a traitor who had Â aligned him- or herself with rebels, when the precise A A knowledge of their identity eluded him? A A It was the sensation of battle, of coming turmoil, that A A most disturbed him. The last thousand years had beenà relatively peaceful, and his six hundred years on theà Â Council had been productive ones. Order was required A A for the continued existence of his kind. He had done his A A part to keep the peace, and everything within him toldA A him that the peace would soon come to an end. A A Hector had no great love for humans; he barely A A remembered being one himself. But humans were necessary A A for the existence of his kind, and as long as vampires A A were thought to be nothing more than myth or fantastical A A beings from horror tales, their survival was ensured. A A There were always a handful of vampires who thought A A differently, who wanted to openly take their place at the A A top of the food chain, but they had never had the strength A A of numbers and were easily taken care of. A A Until now. A A There was a knock on his door, and with that knock an \hat{A} \hat{A} increased sensation of the end. He didn \hat{A} ¢ \hat{a} $-\hat{a}$, ¢t answer, but he \hat{A} \hat{A} knew the locked door offered only a brief delay of the A A inevitable. He wasn A¢a ¬a,,¢t a warrior, had never been a warrior. A If Luca were here . . . but he wasn A¢â ¬â,¢t, and wouldn A¢â ¬â,¢t be for A a few more hours.à All he could do now was use his ability, and Lucaââ ¬â,,¢s,à to pass on what he could. Concentrating, Hector didA A his best to fill the air with his thoughts, his energy, andà his knowledge. He was looking at the door when ità Â flew open, and in truth was not surprised to see whoA Â was on the other side. A A He thought the name, whispered it, imprinted theà face in his mind, and set it loose.à He fought, of course he did, but heââ ¬â,¢d been old before A A he was turned and his physical strength had never been A A great. The outcome was a foregone conclusion, one heà Â had sensed approaching. And he was aware, at the veryà Â end, that there was another traitor in the hallway, listening,Ã Â waiting, hiding from the

power she knew heà possessed.à She.à Out of respect, the attacker didnââ ¬â,¢t drink Hectorââ ¬â,¢sà blood before he drove a long-bladed knife into hisà heart. Three times, it took, before the heart was soà damaged that Hectorââ ¬â,¢s long life ended in a burst of bitter, gray dust.à From the Paperback edition.

Blood Born by Linda Howard and Linda Jones is a great vampire paranormal romance. The plot was solid, there were tons of interesting characters in the large world that the authors created, and sweet romance along the way. Character $\tilde{A}f\hat{A}\phi\tilde{A}$ \hat{a} $\neg\tilde{A}$ $\hat{a}_{,,\phi}$ actions always seemed believable and emotional reactions were never over dramatic just for the sake of being dramatic, which I really liked. Also, there were no deeply sadistic or overly gruesome scenes, also something I really liked about this book. Not that there wasn $\tilde{A}f\hat{A}\phi\tilde{A}$ \hat{a} $\neg\tilde{A}$ \hat{a},ϕ t blood, or people getting killed, but the goriness wasn $\tilde{A}f\hat{A}\phi\tilde{A}$ \hat{a} $\neg\tilde{A}$ \hat{a},ϕ t focused on. The story opens by introducing us to many different characters, one or two at a time, and giving us a view of the world from their perspective, either human or vampire. The main thrust for at least the first 25% of the book is to show us the world that vampires live in, and the battle that some vampires are secretly waging in order to finally stop having to live in the shadows. We do meet the hero and heroine that the romance centers around, but it took me until the 25% mark to realize which characters the romance would be about. This $\sin \tilde{A} f \hat{A} \phi \tilde{A}$ $\hat{a} = \tilde{A} \hat{a} \phi t$ bad by any means, this story just $\sin \tilde{A} f \hat{A} \phi \tilde{A} \hat{a} = \tilde{A} \hat{a} \phi t$ the typical incredibly graphic, hot and steamy romance of many vampire PNRÃf¢Ã ⠬à â,,¢s.Blood Born felt like a great paranormal adventure with some incredibly sweet, and at times, briefly steamy romance thrown in. The vampires don $\tilde{A}f\hat{A}\phi\tilde{A}$ \hat{a} $\neg\tilde{A}$ \hat{a},ϕ t have human emotions and struggle to understand why they should care about them, and this includes even the vampires that don $\tilde{A}f\hat{A}\phi\tilde{A}$ \hat{a} $\neg\tilde{A}$ $\hat{a},\phi t$ want to come out of the shadows and try to dominate humans. So when the vampires do start to feel things for this or that human, it leaves them mystified, which of course leads to poignant things happening. There are so many interesting characters created in this first novel that you $\tilde{A}f\hat{A}\phi\tilde{A}$ â $\neg\tilde{A}$ â, ϕ II be rooting for not only the main couple but for others to find or acknowledge their feelings as well. I really enjoyed this book and hope there are, or will be, more novels.

I absolutely LOVED this book! The story focuses on Chloe, a conduit who needs to call her ancestor forward for a coming vampire war, and Luca a vampire who was born and not made. Luca serves the vampire council as an enforcer and protector (when needed). Luca pays a visit to the council when a friend of his is murdered. While investigating the murder, he encounters Chloe. Luca has a power (or gift?) of being instantly forgotten as soon as a person turns away from him but Chloe

remembers him which causes him to become intrigued with her. While he's trying to figure out why she remembers him, he becomes aware that her life is in danger from other vampires and realizes that he wants to protect her. This was the best book. Even though I suspected how it would turn out (I read a lot of paranormal romance), there were lots of interesting plot twists and turns. Even though the main story is about Chloe and Luca, there are other interesting characters and some of their stories are told in the 2nd book (which I blazed through as well).

Wow. Just when you think you have everyone figured out. They change. Some for the better. They find that no matter how long they have walked the earth. They do not know everything.

Not only held my interest but was difficult to put down. The interaction and outcome for Chloe and Luca was inevitable. The ending was not completely expected. I enjoyed the chance to get away from the everyday humdrum into the lives of Chloe and Luca. I love happy endings.

I enjoyed this one. What I'm not excited about is that I have to wait a full year and a few months to read the next book in the series. Lucas Ambrus is blessed and cursed. People forget who he is the minute they're not looking at him. It's helpful being a vampire, but unless you're the strongest of the strong vampires you won't remember him. It's difficult for him to have any connections with vampires or people. Chloe Fallon is a conduit. There's a war brewing and her warrior is trying to come through to stop it. As more and more warriors are trying to get through the rebel vampires are taking the conduits out before they can enter this world. Lucas happens to stumble upon Chloe as one of the rebels is trying to kill her and he saves her. What he doesn't understand is why Chloe is different and can remember him. While Lucas is trying to stop the war he also needs to protect Chloe. There were a lot of character dynamics in this novel. There were a lot of characters I'd like to learn more about and a few characters that were cut short that I feel like I'll miss. It kept me entertained and wanting to read more and more. I didn't want to put this one down. I was a bit disappointed at the end as it just sort of ended but I think it was mainly to setup the beginning of book two. Still, I wish it had a little more of a conclusion.

I am not usually into this type of reading but Linda Howard is a very good writer and I still enjoyed the book.

I really need to get the rest of this series.

I truly got lost in this book and could not put it down until I'd read every single word ,, thanks Linda howard , I'm truly a fan of your work,, keep them coming
