Customer Reviews

Hypnotherapy, this one would be really helpful to anyone. This one is a must share for my loved ones and will definitely get more than 5 stars here on .

Amazing how the brain works and all of the untapped power we can get from it. Very interesting and informative book.

always nice to have reference material like this for the future

Disappointing !

I remember when we were kids me and my brother would experiment with trying to hypnotizing chickens to no avail haha. This book is a whole lot better than the advice we got back then. This book goes into detail on how harness the power of your sub conscious and really delve into the depths of your mind. I found it very interesting and a good read. Very helpful if you want to give hypnotizing a go.
