Customer Reviews

Being a Lonely Planet book, I had high hopes that this would be a great book. The book does not do a good job of laying out places of interest, shopping, or activities. Must see places are missing from the book; shopping suggestions are limited to high end clothing, art galleries, or produce markets. Some of the activities are described as treks but the highlight (aka waterfall) can be seen with a 5 minute or less walk. 1/5 when compared to a normal travel book. 0/5 when compared to a Rick Steves book. Save your money and buy a different book.
