Wonderful illustrations, charming story.

This detailed, wordless picture book shares the story of one professional working crocodile's day. Crocodile is awakened from his dream of floating in a swamp by

his alarm clock. He gets ready for work, uses the bathroom, brushes his teeth and selects an appropriate tie. He has jam and bread for breakfast and heads out. He window shops on his walk to work and takes the subway. He picks up flowers, the newspaper and a treat from the bakery. He finally reaches his destination, the zoo, and takes his place in the exhibits after changing out of his clothes. This book plays up the mundane little activities in life, making them all the more important. Clearly European, this book captivates, showing small details of life and then suddenly switching into wild animals at the zoo with a satisfying ending. The illustrations are filled with little details, like other animals on the streets and subway, and humans looking just a tad nervous as they see Mr. Crocodile near them. It is the use of human life details with the crocodile character that work so well here. That tension plays throughout the picture book, making it a look at humanity and our lives just as much as being a crocodile. There is a real appeal to the illustrations and the story line that draws the reader in and will have them leaning over the page to see more. Great illustrations and a whimsical crocodile character make this a winner. Appropriate for ages 3-5.

Professional Crocodile is a brilliant book! It is witty and fun while being beautifully entertaining. Mr. Crocodile has a morning routine similar to anyone. He has to get dress, catch the subway, and get to work on time. Of course, it is more amusing to watch a Crocodile fit in with the human world, but his demeanor and attitude are similar to anyone headed to work. The climax of this book is figuring out what he does for a living and in that, lies the humor of this well-thought out book. This wordless book contains wonderful illustrations that are just colorful and full of life. Some of pages are in a comic-style, with multiple picture sequences on one page. With so many things to look at, this book is entertaining for all ages. You definitely don't want to miss out on this great book!

Love this book! I was captivated and intrigued by the gorgeous illustrations throughout and genuinely surprised by the ending!
