Leaves Will Grow

Synopsis

"Henry is like any other boy you know. Except, Henry is drifting. He has been, ever since he lost something he cares a lot about." Join Henry in this heartwarming tale of love and loss, as he discovers that sometimes the thing we long for most is closer than we think. Daniel and Holly prepared this book for readers of all ages who are having a difficult time processing the loss of a loved one.

Daniel Graham earned his MFA from the University of Georgia and is currently an Associate Professor of Art at Georgetown College in Kentucky, where he teaches sculpture and printmaking. Daniel is usually found in the wood shop, where he spends most of his days getting dusty making work and thinking about his family. Holly Graham earned her BFA from Longwood University in Virginia and currently homeschools and cares for their two children. In quiet moments you will likely find her drawing, taking photographs, or scouting for new family adventures. For more information visit www.corianderseedbooks.com.

There is touching movement in the story as the young boy drifts through seasons in search of familiarity and hidden love, only to find it in the memories of the life lessons learned from his mother. Poignant and uplifting, this tale is soulfully written and illustrated with pen and ink and splashes of color. A must have for all ages (because we all will eventually lose someone), it replaces heartache

with a shimmer of hope and comfort. Hats off to the Grahams for an amazing first book...eagerly awaiting the next one.

This is a story that you will want to read over and over again, because all ages can relate to it. Full of poetry, imagery and symbolism, which is beautifully but simply illustrated. It leaves you feeling better. Each of us experiences loss with a different perspective but this book allows us to draw from our own life experiences, to fill in between the lines, no matter what our background. I highly recommend you share this book with your child early and often so that loss can also be accepted as growth. I love it!

This is a well written and beautifully illustrated tale of a young boy's journey from grief to recovery. The analogy of a tree bearing new leaves is a subtle and effective way of reminding us that life is fragile but remarkably resilient. I can't think of a better way to present this to children. I highly recommend this book.

Leaves Will Grow is soulfully written and warms the heart of any reader. It's inspiring and uplifting and a great way to teach a child or adult of any age that life does go on, the leaves will grow and your loved one forever remains in your heart. Beautifully written and illustrated. A must have for any library.

This is a beautifully written and illustrated book to help those who have lost a loved one. The flow of it is incredibly relaxing and comforting. I recommend it for children all the way up to adults. It speaks to all hearts. I look forward to future books!

A sweet and thoughtful story, beautifully illustrated. The profound message is conveyed gently. The simplicity of the illustrations enhances the subtlety of the prose. Poetic and eloquent.

Lost someone and cannot yet see hope or light? Grieving is unique to each of us. This book is a special and wonderful marriage of words, thoughts and illustrations to help all of us who are grieving begin to realize hope WILL come.

Leaves Will Grow will warm your soul. It leaves you with a peacefully feeling that it's going to be ok. Excellent book!!!
