Hepatitis C Symptoms, Treatment And Cure

Synopsis

Most people don't know that there are symptoms of Hepatitis C that go undiagnosed for many years because it rarely causes symptoms in its early stage. Actually, someone who has been carrying Hepatitis C for decades may not have any symptoms until it has caused a significant liver damage. Even then, the symptoms typically appear and disappear.

Customer Reviews

nothing new

It was hard to get through that book, especially when ever other words was "um"

I cried at the end of chapter 7
