Nursing Home Federal Requirements, 8th Edition: Guidelines To Surveyors And Survey Protocols

Synopsis

Allen's Nursing Home Federal Requirements, now updated and revised in a user-friendly Eighth Edition, is a vital nursing home administration text. Without exaggeration, it can be called the bible of federal nursing home requirements. -Christopher Cherney, San Jose State University Darlene Yee-Melichar, Professor of Gerontology, San Francisco State University Educational Gerontology [The book] lists all the federal requirements that are evaluated by state surveyors during the annual survey visit to nursing homes and for complaint visits. The exhibit section contains forms used by surveyors to gather data during the survey visit. Visually, the format makes the regulations easy to read. If nursing home staff used the book to prepare for a survey, they would be well prepared. -Marcia Flesner, PhD, RN, MHCA University of Missouri-Columbia From Doody's Book Reviews Nursing homes are now the most highly regulated environments in the United States, in the service of maximizing the quality of each resident's life. This user-friendly guide has been updated to provide all of the requisite information needed by nursing home staff to prepare for a visit from federal surveyors. It provides the most current federal guidelines and the procedures used by federal surveyors in certifying facilities for participation in Medicare and Medicaid funding. It describes every aspect and service of a nursing home that is subject to inspection and includes the nearly 20% of new requirements established during the past three years, with an emphasis on the new Minimum Data Set 3.0. The guide not only presents federal requirements and explanatory guidelines but also explains how to best interpret these guidelines so nursing home staff can be optimally prepared for a survey visit. It reflects changes in regulations regarding end-of-life care, nasogastric tube regulations, and rights to establish advance directives. The guide also provides information straight from CMS's Internet-Only Manual. New Features of Eighth Edition: Describes how to best use the updated manual Focuses on Minimum Data Set 3.0 Explains clearly how to interpret the new requirements, 20% of which have been updated Presents new quality measures Includes new CMS forms Reflects changes in regulations regarding end-of-life care, nasogastric tube regulations, and rights to establish advance directives

James E. Allen, PhD, MSPH, NHA, IP, is an associate professor of Health Policy and Administration Emeritus at the University of North Carolina at Chapel Hill and president of LongTermCareEducation.com, a national resource website for information on the long-term care field. He has 30-plus years of experience in teaching and conducting research in the field of health care administration. He taught courses at the University of North Carolina at Chapel Hill in long-term care administration, medical ethics, and the organization and financing of health care delivery in the United States. He has provided legal consultation in long-term care litigation matters across 10 states. The website www.longtermcareedu.com (or www.ltce.com) provides more than 500 pages of state-by-state, up-to-date information on such subjects as: Becoming a nursing home administrator Becoming an assisted living administrator Exploring a career in long-term care Contacting the state licensing authority in each state Enrolling in college programs in each state Obtaining key publications in the long-term care field Getting continuing education units. Dr. Allen can be reached via e-mail through the website, or directly at jeallen@mindspring.com or jamesallen@unc.edu, or via phone (1-929-815-0387) or fax (1-919-953-6825). Continuing education units for both nursing home and assisted living administrators are also available through the website (www.LongTermCareEducation.com). Additional resources from Springer Publishing Company are available to persons preparing to become long-term care administrators : Nursing Home Federal Requirements and Guidelines to Surveyors , Eighth Edition: A user-friendly rendering of the Centers for Medicare and Medicaid Services nursing home inspection requirements. Nursing Home Administration , Seventh Edition: The definitive textbook of essential knowledge for obtaining licensure and employment as a nursing home administrator. Visit www.springerpub.com for more information

This book is perfect for anyone who wants to take the NAB exam. I practically just used this book in

concordance with James Allen other NHA guide. I will say the key factors to passing the NAB is truly understanding the federal regulations, understanding the Life safety codes, reading over financials from Allen's other book (chapter 3) and going over all the laws and amendments passed that affect the LTC industry (Again, Allen's other book chapter 4). However, this book is your bible for future nursing home administrators. Not only does it provide an overview of all the regulations. It also tells you the intent of the regulations and possible compliance issues for each one. It is very thorough and I highly recommend it. There is a national study guide that you can purchase off the appropriate website, but I got to say it is very underwhelming in preparing you for the NAB.

Great for health care and federal state inspections. I used it when I took my National Nursing Home Licensure exam. Great reference book to keep in your office to review the regulations.

WASTE of money. All information is easily found on CMS website, some of his other material is useful but not this. It is not useful for NHA, just surveyors. Could have been made much more useful

Great complete compilation of the CMS Medicare and Medicaid Regulations, along with the CMS Nursing Home Survey Protocol/Inspection forms. Although all information in this book is available for free on the internet, most are somewhat difficult to locate. It is a handy reference book as well.

This text is an all inclusive for surveyors, nurses, administrators, ADONs, and DONs, and consultants interested in nursing home reviews. It details everything in the mind of a surveyor for a surveyor, and it enlightens anyone who wants to know nursing home requirements per the federal government and OBRA legislation. The text is written at a college level and is easily understood even if you are not in the health care profession.

Great reading very detailed

I was not sure what condition the book would be in and if the book would be helpful as I prepared for the NAB exam and becoming the Assistant Administrator at our nursing facility. However, the book arrived in a "new" condition and has some awesome information I need to know to do my job well and pass the national exam.

This is one of the books needed for the NAB exam.
