ISBN-13: 978-0892030750

Product Dimensions: 0.8 x 8 x 10.2 inches

Shipping Weight: 1.5 pounds

Average Customer Review: 4.0 out of 5 stars 1 customer review

Best Sellers Rank: #5,371,848 in Books (See Top 100 in Books) #35 in [Books > Medical Books > Administration & Medicine Economics > Rural Health](#) #1475 in [Books > Textbooks > Medicine & Health Sciences > Allied Health Services > Emergency Medical Services](#) #2170 in [Books > Textbooks > Medicine & Health Sciences > Medicine > Clinical > Emergency Medicine](#)

Customer Reviews

This unique text focuses on emergency response to agricultural accidents. Many pertinent topics are discussed including farm machinery, animal hazards, incident command, etc. There are few good sources of information on this important topic, this is one. While the author occasionally is tunnel-visioned regarding the problem solving skills possessed by modern rescue personnel, the book is generally precise, modern and well-researched. Farming accidents are common (agriculture is the most dangerous industry in the country), and almost always present emergency crews with unique challenges. Those challenges can be life-threatening not only for the accident victim, but the rescuers as well. This book presents information that is quite useful in improving patient care and the safety of the responders.
