## Customer Reviews

This book, "Speak Japanese in 90 Days" was a great help for my husband and me during our trip to Osaka, Japan. The way the author has designed the language learning curve is quite efficient as the book is divided in 90 lessons that you have to read as one per day. Each daily lesson has 10 vocabulary words for you to memorize and most of those daily lessons do contain some grammar structure to memorize as well. It is recommended to write down those 10 vocabulary words on 10 separate cards, on card's front face you will write the English word and on the back side you will write the Japanese word, you must say out loud each word in English and then in Japanese, in that way you will help yourself to memorize each word. The author also recommends to repeat each word at least three times a day in order to increase the memory ability of every single word included on each lesson. After that, you can try to make sentences with the words learned in order to improve your memory ability and language structure. An explanation about the Japanese writing system and its pronunciation is also described by the author. In our own experience, this book helped us a lot; although, we also carried a dictionary and other language devices, but still without understanding the basics of a foreign language, there is very little you can speak. Therefore, this book gave us a much better understanding of the Japanese language and its structure so it was easier for us to deal with several important situations as getting train tickets, ask for directions, buying food, get a room and some more regular daily situations.

Love how this book is broken up into daily lessons. It is easy to follow and keeps you on track and motivated! If you want to speak, read, and write Japanese, get this book! I also bought the flashcards which are very helpful, I have them on my smartphone and use them at home and on the go!

I love this! It's easy to follow along and I felt like I was leaning lots
