Friendship Bracelets: All Grown Up: Hemp, Floss, And Other Boho Chic Designs To Make

Synopsis

Add instant eco-chic street fashion to any outfit with friendship bracelets! Get that trendy bohemian look with bountiful, bright colors on your arms and wrists. Inside you'll find dozens of stylish designs and easy techniques for making beautiful bracelets with embroidery floss and hemp. Friendship Bracelets offers fresh ideas for expressing yourself with the texture and beauty of intricate knotwork. You'll find cool patterns here for making chevrons, stripes, waves, diamonds, and more, with step-by-step instructions for each knot pattern. Gorgeous color photographs illustrate variations in every style, from classic and natural to playful and eclectic. Stack your bracelets for a boho arm party, and embellish them with beads and buttons. Learn how to make inexpensive hemp jewelry in fun colors, inspired by laidback hippie vibes. Transform ordinary friendship bracelets from middle school memories to chic contemporary pieces you'll be proud to wear. Whether you're going bohemian, mod, or all-out fashionista, Friendship Bracelets will help you to create exactly the look you want.

Customer Reviews

Author of 230 craft & hobby books and 15 Zentangle books, Suzanne McNeill has been called "the Trendsetter" for arts and crafts. Dedicated to hands-on creativity, she constantly tests, experiments and invents something new and exciting. Suzanne is the woman behind Design Originals, a publishing company dedicated to all things fun and creative. Winner of the Craft and Hobby Association's Industry Achievement Award, she is a designer, artist, columnist, TV personality,

publisher, art instructor, author, and lover of everything hands-on.

I really like the designs presented in this book. The actual designs are not only creative, but provide great starting points for personal embellishment. The instructions are clearly stated with drawings that actually are clearly drawn and make sense. I have had many hours just happily making these friendship bracelets and my only problem to date is what to do with them all?! Love it.

I bought this for my nieces to share for Christmas and they loved it. They've made bunches of bracelets for friends and family members and even made some anklets and necklaces. I bought a large thing of embroidery thread to go with it so they would have plenty of choices in colors to create with. Absolutely perfect for beginner crafty kids and appropriate for either boys or girls.

The recipient was well pleased so I'm thinking it hit all the right buttons. Had a quick thumb-through and it looks pretty complete. I noticed that some of the designs used a clasp rather than the usual "tie-it-'til-it-falls-off" knot...not a bad thing if one is looking to make bracelets for more than just their BFF.

There are plenty of ideas here and they definitely work for those of us who are too grownup for some of the patterns that are out there. The directions and images are what you would expect for this type of book and while I think that there are some better books out there this one definitely can inspire you to create some lovely wrist wear. This is definitely a beginners book but it is probably one of the best I've seen.

My tween daughter loves to make woven bracelets. We originally found this at our local library and then decided she wanted her own copy b/c there were so many neat ideas.

Best pattern book for friendship bracelets out there! One of several I checked out of the library, one book had lots of bracelets and no instructions for any of them. This is totally the best value. This had so many great patterns it was cheaper and easier to just buy this book. I love it!!!

I don't know much about this craft, so my review is not that inclusive. The book has good suggestions for a beginner, I would like to find more wild designs with feathers, fabric, and fringe, shells, and stones, and dangly bits. I don't know if friendship bracelets include such things. I would

like to do more with fabric other than leather or hemp and I would like to re-purpose materials The designs are basic and a good start. I like to be a little more wild and inventive, but that's just me. I gave it a 5 since I have not found anything better. This book gave me the incentive to get creative. It's a good jumping off point. For instance, I ended up making stranded bracelets, and for some reason the book inspired me to make a snake bracelet out of memory wire. I know this book is not about creations like that, but it did give me the desire to go off in a new direction.

Love this book. It has everything I need to make different designs. It also saved me money cause I was looking for a book on hemp designs and this book has it.
