Everyone's A Aliebn When Ur A Aliebn Too: A Book

Synopsis

everyone's a little bit of an alien when you're a little bit of an alien too. It is the illustrated story of a lonely alien sent to observe Earth, only to meet all sorts of creatures with all sorts of perspectives on life, love, and happiness, all while learning to feel a little better about being an alien. Based on the enormously popular Twitter account, @jonnysun. Here is the unforgettable story of Jomny, a lonely alien who, for the first time ever, finds a home on our planet after learning that earthlings can feel lonely too. Jomny finds friendship in a bear tired of other creatures running away in fear, an egg struggling to decide what to hatch into, an owl working its way to being wise, a tree feeling stuck in one place, a tadpole coming to terms with turning into a frog, a dying ghost, a puppy unable to express itself, and many more. Through this story of a lost, lonely and confused alien finding friendship, acceptance, and love among the creatures of Earth, we will all learn how to be a little more human. And for all of us earth-bound creatures here on this planet, we can all be reminded that sometimes, it takes an outsider to help us see ourselves for who we truly are.

Customer Reviews

"Jomny Sun's incredible writing knocks you to the floor, breathless, then scoops you up and gives you a kiss where it hurts before it occurs to you to cry. Read this book only if you want to feel more alive." (Lin-Manuel Miranda)

"Jomny Sun has created a frightened, hopeful view of Life As We Know It from the perspective of a weirdly relatable alien intelligence. Fantastic." (Patton Oswalt)

"This book is funny and sad, simple and complex, badly

spelled and beautifully written. Jonmy Sun gets more out of a panel than most do out of a page, revealing obvious yet hidden truths as only someone one step out of step could. (Joss Whedon) Impressively sincere, at times insightful, and humorous. Sun's fans will welcome his first book with wild enthusiasm. (Library Journal)

I came across this book being discussed on Twitter and it seemed to loom large in some of the geekier circles, so I couldn't resist check it out. I am SO GLAD I did. It's an immediate classic in the vein of Shel Silverstein and Dr Suess-simple and poignant and much much deeper than you assume. It seems, at first glance, that it is a children's book-all smiles and lightness, but there is an underlying current of the darker side of life including a wonderful nod to the Giving Tree that just immediately drew me in. It is really quite wonderful for anyone of all ages.

a beautiful, sweet, heartwarming story. there are so many levels this work should be appreciated on, from the hand drawn pages to the unexpected humor and the sincere sadness, and each character carefully formed. a must read for all humans, especially those who feel alone

This amazing not-so-little book offers a poetic insight to the meaning of life by approaching it from the outside looking in. With simple yet powerful illustrations, this adorable little alien will open your eyes to new perspectives, or remind you of ones you've discovered and forgotten. I definitely recommend sharing with a friend to spread the love.

The purest, most surprisingly insightful, darling book of the year. There are layers beyond layers here; the depth twists and turns, but in a way that can be recognized by both the young and the old.

My 9 year old son loved it as much as I did, for both different and the same reasons. In a time when there is so much chaos, negativity, isolation, alienation (heh), this book is the perfect warm hug. The perfect reassurance. The perfect trigger for moments of delighted laughter, delighted and empathetic tears, and charming insight into what it is to be an aliebn navigating the world of fellow aliebns - all of us.

I don't usually write reviews, but Jomny's book deserves one. It's cute, sad, happy, and profound at every turn of the page. It made me cry. There is something in here for everyone to relate to, as well as something for everyone to feel a little bit better about just being alive. It's so easy to forget how lucky we are just to experience anything. It's a great reminder that you are not alone in anything you experience, whether it's your fears, feelings, orientation, identity, or appearance. It's a great and easy read, and while a couple pages brought me to tears, it made me feel better about my life. I've been experiencing a few personal and internal struggles both with the world and with myself lately, and this book helped me. We often rush to figure ourselves and our lives out, to make everything perfect, when it often only makes you feel worse. There's only one you, and nothing lasts forever, so you need to enjoy the bouncy castle and make the friends while you're around. Jomny's book is, to put it simply, amazing.

Books make me happy, sad, frightened, hopeful, or every other emotion someone can feel.

EVERYONE'S A ALIEBN WHEN UR A ALIEBN TOO is different. I can't describe the way I feel after reading this book. I loved it so much. It's the perfect book for anyone and everyone regardless of age or reading level. I love books that put a silly smirk on my face even after I've finished and this book has done that!

I LOVE this book. I knew I'd like it, but I love it so much I've now ordered 5 and have started giving them to loved ones. It's sweet and cute and lovely but also deep and wise and true. Buy one for everyone you love.

I don't even do reviews, but I feel so compelled to shout at the world how much I love this book. It's simply-written with huge truths and profound insights. I read it yesterday and I've already suggested it to four different friends. I can say without hesitation that this book is the best ten dollars I've spent in my entire life. Do yourself a favor, just buy it now.
