Stargate Universe #1

Synopsis

Stargate Universe the comic book begins right where Season Two of the acclaimed science fiction TV series ended, with the crew and unwilling passengers of Destiny set to cross a vast expanse of space with no margin for error. With almost all of the crew of the ancient starship Destiny in suspended animation, only Eli Wallace is left awake to repair his own stasis pod before time runs out. While he races against time, a new and unexpected danger threatens the fragile plan designed to keep everyone alive and away from the aliens who had been pursuing them. What strange new menace confronts Eli, Colonel Young, Doctor Rush and the others? You'll have to pick up this issue to find out!

Customer Reviews

I liked this introduction to Stargate Universe in a comic book forum. And the Stargate Atlantis sneak peek was a great bonus read. Thank you Mark Haynes a new fan.

I find it great that someone has taken on the mantle of continuing the SGU story after the unfortunate series finale. I liked the transition from the series finale to the continuing plot. I found the

briefing Eli gave to Everett a bit confusing. I am curious who these mysterious human-looking aliens are and why/how they have been resuscitated at this time in the overall story. I look forward to the next issue.

I was shocked at how short this was, and how poor the drawing was. It gets the job done, but the characters look almost nothing like the characters on the show. Disappointed...

It was short but it brings you right back to the cliffhanger and then leaves you with a whole new one. Can't wait for the next one.

Interesting take on the story. Never really read a comic book before and expected it to be longer...more an episode length. Although looking back it probably would have been stretched out like that

Waited years to find out what happened to Eli! Can't wait to find out more about destiny. Keep it going!!

Love the writing so far. Been a long wait and it did not disappoint. Cannot wait for the next book.

It's back, it's really back! Sure, I am not too jubilant about the art style, but it's back! Stargate Universe is just one of those properties that is rich with potential. That potential was sadly snuffed after only two seasons on air, until now. This comic series is the obelisk planet of hope -just with warmer winters-.
