# Macarons Cookbook: Conquer The World With This Unique Macaron Recipe Book

## Synopsis

Succeeding making macarons shows that an extremely simple recipe can be very difficult to achieve. Indeed, this simple biscuit made of egg whites with icing sugar and ground almonds, yet getting a crust on top that gives the crunchy and perfectly smooth inside, turns out to be a delicate process and requires a great knowledge which you can gain through macaron cookbook. This little dessert which is so popular today apparently appeared in Europe in the middle Ages. Since then the recipes have been only slightly changed and the ingredients are almost always the same. However, one thing is greatly changed. Earlier the macaron was presented individually and not in pairs as it is accepted today. It was only in 1830s when the macaron took the form we know. The pastry chef had that amazing idea to bring the two shells together by welding them with a ganache giving a birth to a famous Parisian macaron. With this macaron cookbook we will travel to different countries and cities in the world to discover so original and unusual macaron recipes. We will as well learn and uncover some of the great Parisian Macarons with some fantastic and so tasty ganache. You will surprise your friends and family and even yourself by offering this savory macarons after the meal or for your afternoon tea or coffee. So what are you waiting for? Get the macaron cookbook and start to discover how this little round cake has conquered the whole world.

## Customer Reviews

This cookbook has a nice array of recipes. I love macaroons but they expensive. I was looking for an alternative and this book delivers.

I'm glad I just got the free sample of this book. Actually I could have just looked at the preview online. The recipes are not clear, especially in relation to the ingredients. The 1st recipe: 5/8 cup of almonds is...what? Almond meal, almond flour, whole almonds that you grind up yourself? Later it does call it "almond powder". Still not specific enough. 2 slices of gingerbread...? What? I need premade gingerbread? (Don't think so) And how much is "2 slices"? Then on to the 2nd recipe. What is pistachio cream or pistachio paste? Pistachio essence, that one I can figure out since I bake but most people wouldn't be able to. Having many baking friends in the UK I understand what caster and icing sugar is but it could be confusing to US people. I'm also surprised that the recipe amounts are not given by weight too. Editing is also needed to check for spelling errors. From the 1st recipe description. "...with your filling such as fruit or anything else that COME to your mind and you think it may FIR well." Alrighty then... With an item as fiddly as macarons you need a book with clear cut instructions and recipes. I will be looking elsewhere.
