Julius Caesar (Shakespeare, Signet Classic)

Synopsis

The Signet Classics edition of Shakespeare's timeless tragedy of conspiracy and betrayal. In the first of his Roman history plays, the Bard tells the story of the murder of Julius Caesar and the gruesome aftermath as Rome descends into a violent mob. This revised Signet Classics edition includes unique features such as:

- An overview of Shakespeare's life, world, and theater
- A special introduction to the play by the editor, William and Barbara Rosen
- Selections from Plutarch's Lives of Noble Grecians and Romans, the source from which Shakespeare derived Julius Caesar
- Dramatic criticism from Roy Walker, Maynard Mack, Richard David, and others
- A comprehensive stage and screen history of notable actors, directors, and productions
- Text, notes, and commentaries printed in the clearest, most readable text
- And more...

Customer Reviews

Grade 5-8-One of the marks of Shakespeare's greatness is the continued interest in adapting his enduring works. This recording of Julius Caesar is one in a series drawn from Leon Garfield's Shakespeare Stories. Liberally sprinkled with lines from the original play, the recording presents a condensation of all five acts in a little more than an hour. Beginning with a brief biography of the Bard, the recording then offers a thorough but not lengthy overview of the play. All this sets the stage for Simon Russell Beale's well paced narration. This Royal Shakespeare Company veteran

moves so skillfully between story text and dialogue that at times it seems as though there are several actors reading. Classic lines such as "Et tu. Brute" and "Friends, Romans, Countrymen " are rendered with fresh vigor. At the conclusion of the play, an article on "Shakespeare Today" offers suggestions to help youngsters have fun with Shakespeare. Short selections of period music make a nice transition between sections of the recording. Though aimed at a middle school audience, both teens and adults will find this presentation a good way to learn about one of the earliest plays performed at the Globe Theatre. Barbara Wysocki, Cora J. Belden Library, Rocky Hill, CT Copyright 1999 Reed Business Information, Inc. --This text refers to the Paperback edition.

The additional content is really interesting but the actual textual notes are limited. I just got a copy of the Arden Hamlet and I feel it provides a great deal more in-text notes and analysis. That said, this edition is valuable for the compilation of well chosen discussions included and I do recommend it.

Another wonderful classic beautifully bound in a lovely treasured keepsake by Collector's Library. Having almost 20 of their books, I am always so pleased add another to my "Collector's Collection." Gilded edges, lovely illustrations at a very reasonable price. Who could ask for anything more?

How can a reviewer give Shakespeare a three-star review, other than all those high school students who prefer to write two sentence 1-star reviews because they were forced to read it? Ah, there's the rub, to coin a phrase, but I am NOT giving Shakespeare 3-stars: rather the edition I have just read, and even less than three stars for the manner in which it displays the editions. It is just flat confusing, and wrong. Since I started my effort to read all of Shakespeare, at the pace of one work a month, I have been purchasing all the works for Kindle reading. The edition I purchased does have a cover which corresponds with the cover (currently) displayed on the statue in the fountain, with the portico in the background. But the edition is (maddeningly!) incomplete the last few pages are missing! At least the confirmation was comforting a couple other reviewers gave it a 1-star review for incompleteness, and not because they were forced to read it. And who could quibble with that? Then there is the matter that at least two other hardcopy editions are displayed on the same page, and the "editorial reviews" that are associated with the Kindle edition seem to have absolutely nothing to do with the edition since they speak of

“copious and concise explanatory notes” et al., with the other review mentioning appendixes that relate to Plutarch, Montaigne, et al. And none of this exists in the edition I purchased, admitted for only 99 cents... but still. If this was a page on Wikipedia, there would be three separate whisk brooms, with the admonition that “this page needs to be (really!) cleaned up. Oh yes, was there an actual play involved in all the above grousing? Definitely, and I must have read 95% percent of the complete play, which poses its own sort of dilemma in terms of recording the play as “read.” It is yet another classic story historically based on the exercise of power, corruption, intrigue, and death. The death of Julius Caesar marked a key transition in Roman history, from Republic, in its faded forms, to Empire. As with so much Greek and Roman drama, Shakespeare commences with a prophecy warning of the ides of March. A prime plotter against Caesar, Cassius, brings in Brutus (of “et tu?” fame) and seeks the “respectability” of bringing in the “silver hair” of Cicero. There are refreshingly “modern” and straightforward details such as Cassius relating incidents from his youth together with Caesar, a swim in the Tiber (in which the latter almost drown) to an illness in Spain, all proof, he says, that Caesar is not a god. There is a discussion among the plotters about killing Mark Anthony too, but then the consensus is that it would be too much like a butchery, and not a “seasoned excise” of this ugly boil upon the Republic. Caesar is killed, literally on the floor of the Senate, obviously long before those ubiquitous metal detectors. He is killed half way through the play, so the remainder is devoted to the (naturally inevitable?) falling out among the plotters, including a key division between Cassius and Brutus. Anthony performs a brilliant funeral oration, that seems to argue on the justice of the killing, but actually turns the tide against the plotters. He allies himself with Octavius, who would become Emperor. At one level, an “exhausting read” of intrigue and perfidy that makes “hanging chads” a much preferable method for power transitions. Who would have thought I’d say that? The plotters do lose out in the end... if I only knew what that actually end was! 3-stars, reflecting a “triangulation” between an excellent play and an incomplete edition that did not live up to its advertising.

This review is for the kindle version of the Arden Third Series Revised Hamlet. Great book with helpful notations/comments/essays. Only complaint is that the play’s text is both black and blue (links to notations) on Kindle fire. This can be kind of an eyesore while trying to read. Perhaps if

Bloomsbury could change the color?

More stars needed. This is the original of them all, and you'll see why when you read it. How could one human being have created such a sublime piece of work? Commenting on it seems utterly ridiculous, and I only do it because you cannot consider yourself literate until you've given yourself the gift of reading it. Masterful storytelling, mystery, psychology, family, love, loyalty, absurdity, revenge, misunderstanding, sword fights, nation building, ennui, more, more more, it's here. And it's influence is everywhere today, movies, TV, novels, and the stuff of headlines. Picked it up again after a few decades and still could not put it down.

Reading Hamlet for my college literature class and the translation is incredibly helpful. Showed it to my teacher and she's considering using it next semester. Great deal, worth much more than \$3.

its great if u need help getting through any shakespeare and making sure you understand it. however it was a bit of a pain in class to have to keep turning the page so much more frequently. the way the book is set up is that on the left page you have the original script and on the right is the modern language version...its also a bit difficult to write notes on the page if you are looking to do that. but it does serve its price mark purpouse

If you are a fan of Shakespeare you will enjoy most of these classical books that he has written. I know a few people have actually had trouble, and in some cases even myself with what was going on in an 'act or scene' but on the left side they break it down in a little note on what is what. It basically acts (the left side) as a study guide on certain things if you get lost, what is what, what is going on, what just happened etc. It takes something that isn't normally used and helps you understand it if you are having some issues. The book itself came very well packed, the pages were not bent, or the cover. It was well written with no errors that I have ran across, and the text is readable. It is a good size for anyone, though a little smaller then the average book it can still work out just fine. The cover itself is practical but very interesting in itself, and smooth so you won't get anything sticky or annoying to deal with. It is easy to keep track of where you are at so if you have bookmarks or so on use them. Not hard to lose at all, and great condition.
