Watch for exciting videos and guidebooks.

It was a quick read that gives you information on the trail for those with not a lot of experience. Definitely more of a narrative but I enjoyed it. Can read in a couple hrs...took some of the suggestions and think we had a better trip because of it.

Enjoyed the insights of a couple of hikers who took on this beautiful and challenging trail

This reads like somebody's Facebook vacation post. Follow the journey of two middle aged, out of shape people as they vacation through the trail. I was hoping for maps, laws, elevation data, weather charts, you know, useful stuff. Not "here's what this was like when we stumbled around on this trail once for our hawaii vacation".
