Customer Reviews

Weddings: Wedding Decorations by Sam Siv is another no nonsense guide to help you make the first day of the rest of your life fantabulous! This guide covers all the basics of making sure you think before you create your wedding cake. The book is laid out in an organized fashion with oodles of helpful hints. And the pictures are YUMMY! They're definitely going to inspire you. And I know it's tempting to want to completely control the show for the bride. Take Siv's advice and at least let your husband-to-be have a say on the cake! TRUTH - The way to a man's heart is through his stomach! lol Bottom line is, this is another well written take action guide by Siv. Can't wait to read the next!

If you are planning a wedding for yourself or someone else, I highly encourage you to check out this book! I am planning mine and was completely overwhelmed when it came to decorating. I have been searching Pinterest for the past year and that just complicated things even more as there are tons of great options. This book helped put my mind at ease as it is organized, easy to follow, and has some very logical yet creative ideas. One of my favorite parts is when Sam Siv mentions we should run decoration ideas past the groom or male wedding party since it is just as much about the guys as it is the gals. You want them to feel comfortable too which may be hard if the scene is overflowing with pink and glitter. The decorations should speak about the couple and who they are together as a team. I am looking forward to dissecting the ideas from this fun e-book further as I embark on my journey of marrying my best friend. No matter what stage you are in, check out this book before going any further with decorating your most memorable day! You will not regret it.

In general, we all need decorating ideas from time to time.....however, when it comes to planning a wedding, a large amount of help is required so as to be sure to get it all exactly right. This new book by Sam Siv does exactly that - it has wonderful ideas that are imaginative and inspirational. Great book to get ideas from for your wedding! Jake

The proof is in the pudding. It seems like once we hit early 30s to mid 30s there is a wedding a month. I dreamed of this day since I was a young girl myself but I never dreamed of how much went into one day. The decorations are always something that was a bit blurry to me though. I could clearly see my dress, hair, makeup, food.... I had a slight idea on color and some decorations I thought were "cute" but this book took the fog away and helped me envision, plan and prepare for the stunning wedding I planned for in my mind. Great resource. Highly recommended. I received a copy at a discount for my unbiased and honest review.

This is a great resource when planning a wedding. The wedding decorations are a big part of the wedding ceremony. This book gives tips and ideas for creating beautiful decorations to create a memorable ceremony. Deciding on a theme for your wedding and decorating to your style and taste are a few key points mentioned in the book. There were pictures depicting some elegant decorations to give you an example of how to decorate with elegance and style. I highly recommend this book for those planning a wedding. I received this book as a promotion for my honest opinion.

This ebook has lots of beautiful photos and ideas. One of my favorites is the photo of the "umbrella shaped" satin container for flowers to use instead of pew bows. I have made hundreds of pew bows (with and without flowers) for friends weddings and I think this new twist is an excellent idea. Looking forward to having this book available at my fingertips. Of course, being to get it free or at a discount is a huge plus to the budget.

Absolutely enjoyed this read! It gives you every point you need from the correlation of location and kind of materials to budget planning. I do like the amount of pictures with samples of decorations and settings. Easy to read and very pleasant to the eye. I am a baker but constantly get asked to help with other things such as decoration and venue, will be definitely recommending this book.

I have a wedding coming up next year and needed some ideas quick. I received this product at a discounted rate for my unbiased review. My wedding is a DIY type of wedding and this book has lots of ideas. You can take a few from every option and combine them to make your own very unique one of a kind wedding. Every wedding planner needs to have this in their collection.
