Customer Reviews

What a waste of money.....I got this for my little granddaughter and there is not one picture for her to see let alone one drawing of the finished item....the instructions are difficult and I can find more practical teaching on you tube.

very basic instructions, would have preferred more detailed ones. Would not buy again

There are no pictures in this book but it does have clear directions on the projects. I will use this

book in combination with another one that has patterns for my class of children.

Good book

Grammar poor. Very small book.

Not for a novice.

Pitiful book.

Book loaded onto My book app just fine. It opened and worked well. But a month later when I went to use it, it wouldn't load and now is just a icon nothing else. Could you please send me a link to reload a good copy of the ebook or just send a a hard copy of it to my address. I liked the information provided in the book it is real simple and basic for the beginner .Thank you Louise M
