The 'In' Crowd (Life With Stef Book 1)

Synopsis

I'm Stephanie Pixley. I'm twelve years old, practically an adult. There is only a week left until school starts and I still haven't gone shopping for school clothes. Not because I haven't wanted to either, it's just that no one has taken me. You know how parents are! Busy! School clothes shopping is the least of my worries. When school starts, it means I will have to deal with Jamie, Heather and Rachael again. You probably go to school with kids like them, The Æœln Crowd. Stick around and I'll tell about my ordeals with them!

Customer Reviews

I'm a school librarian and I have to say that this particular book was such a joy to read! This is the perfect "transitional book" for those kids who are ready to make a leap from the basic children's chapter books to a genre that tackles everyday issues that pre-teens face when in middle school and beyond, but on a very age-appropriate level. As a Christian, and from a personal stand-point,

this is a refreshing book to see on the market that ties in those values I believe are so important to consider when kids face bullying. The main character handles this in such a great way, and it's in a way that every reader can appreciate regardless of their beliefs. And, let's face it, so many books on the topic of bullying have such a nice, tidy ending that kids see them as cheesy and unrealistic. I didn't find that to be the case at all with this book. While the book does end on a positive note, it does explore hurt feelings, choosing to ignore (which is tough when dealing with a bully), and then extending grace to the bully when turning the other cheek isn't as much fun as watching your enemy get their "just desserts". You can't beat this price for a great e-book, and I have a feeling your reader will be hooked and want even more Life with Stef books.

I got totally caught up in the In Crowd and am looking forward to future works. I found myself remembering the challenges of being that age and wanting so desperately to fit in. I loved the pace of the story and felt like I was on an escalator riding alongside these characters as their lives unfolded before me. I thought both the family dynamics and the friendships were believable and appropriate. I was greatly impressed with the presentation of unforgiveness as a destructive acid and simply loved every nuance of the central character.

I chose this rating because this is a very entertaining book. I liked the fact that it talks about GOD, it inspired me to take a little more interest in Christian knowledge. It was the best book ever, I did not dislike anything in this book. I recommend this to anyone who has a non-interest in Christianity, and you also learn to make friends with your enemy's no matter how much bad I recommend this for anyone in the world

I couldn't get it going much. Probably cuz the age range is not low enough. Also because early on Stef is very disrespectful to her family, and we have no need for that.

Stephanie Pixley is twelve years old and wanting new clothes for school. She encounters Heather and her friends, the "in crowd", at the mall and they mock Stephanie's choices of school wear as cheap. Steff realizes at Sunday School that clothes aren't the most important parts of life and she tries to forgive Heather for having mocked the choices Steff's mother approve and was willing to pay for. Later Steff was pleased with the clothes she wore to school. Later, Heather is shamed and loses all her friends. Steff helps

Heather and invites her to church. There, Heather and her parents learn that God loves them and cares for them. A nice story for elementary school age girls.

I like the book of very cute short stories for the children. I have 6 year old my daughter. Whenever I put a new story in her ear her, her curiosity boost up. In this book beautiful 10 chapters having a good stories which can improve your child thinking.

I like the book because it teaches us how to forgive others. This book shows how much kids care about their looks but over all this book is amazing

It was a good book, not my favorite because it was short. I am in to longer books but for lower level readers it is great. I would not buy it if you are over the age of ten. It feels like it was geared towards younger kids. It has good morals for Christians, lots of godly talk for real life situations. It feels like something that could really happen.
