Katz's (Princess Baby) nursery patchwork quilt approach is a far cry from the Jean Charlot illustrations originally paired with Brown's (Goodnight Moon) text back in 1952 (the book was created as a companion to the Caldecott Honor title *A Child's Good Night Book*). A squirrel pops out of his hole in the tree. Who woke me up? The sun! The sun is up! announces a typical spread. Katz turns on the twee faucet: she shows a cutest-ever baby playing peek-a-boo with a blanket while birdies, bunnies and a dozing horsey (with a silver-white mane) array themselves about the smiling squirrel's tree. Katz's legions of fans will certainly rejoice to see her signature kewpie doll-like characters cavorting to the words of the grande dame. But those who love Brown for her honesty and directness may just shake their heads. Ages 4-8. (Jan.) Copyright

•Four children wake up with the sun shining brightly into their window. But before they leave their beds, the birds, horses, squirrels, and other creatures have already started their day. In this newly illustrated edition, originally published in 1952 (HarperCollins), Katz has reinterpreted the text in her warm and rounded style. Babies, animals, and even the bumblebees have circular faces with small features matching the simplicity of the narrative. Brightly colored patterns and use of collage add interest to each page. This book has been popular over the years. Refresh collections as needed.

I wanted a children's book that was a story about waking up in the morning rather than nighttime stories which are in total abundance. Then, I came across this book and had to buy. We literally read this book every morning. Simple prose that elicit wonderful images along with visually textural pictures bring a smile to my son's face :) "The birds in the trees begin to chirp... the squirrel frisks away... the flowers bloom to the morning sun..." "This is one of those timeless children's book that will stay on my children's shelf for years to come.

Love love love this book. It is my 10-month old's favorite book. We've been reading it almost daily since he was born. Such great illustrations, nice story. Love that it's a "good morning" book and starts the day off right with reading! Stories aren't just for bedtime :)

The sun rises and beckons the roosters to crow, the birds to fly, the horses to gallop, the squirrel to frisk, the rabbits to leap, run, and nibble. It urges the flowers to open, the bees to buzz, the bugs to creep, and the birds to sing. It is a brand new day and the author calls upon the children to wake up and asks "What will you think? What will you play?" It is a wonderful celebration of the anticipation that each new day brings and a reminder that "This is your day!" We read this book every morning. My daughter loves the bright, bold, vibrant pictures. The illustration style is similar to a quilt or collage. There were some criticisms in other reviews for the illustrations of the sheep. I think it is important to expose children to a multitude of artistic styles. The pictures are not so abstract that you can't tell what they are; they are whimsical. Another great part of our morning is an awesome

CD with morning music that I highly recommend! Æ Æ Morning Magic

Toddlers enjoyed this book.

Oh god. This book is not fun, it's like molasses. I bought it thinking it had to be great because of Margaret Wise Brown, but it's so strange and does not flow well. I really wanted a morning book because we have so many night time books, and we like to read in the morning too

The pictures were beautiful, but the text is nonsensical and lacks rhythm in several places. It is not a book that would be easy and fun to read in the morning.

One of our favorites!

Love her books! Great for little hands and curious minds.
