Vascular Nursing

Synopsis

The second edition of this book, which is dedicated to the nursing care of the vascular patient. Incorporating all aspects of the most current methods of diagnosis and treatment of vascular disease, this book is valuable to all members of the health care team who care for vascular patients. The book is divided into five sections: basic considerations; perioperative evaluation and management; arterial diseases; venous disease; and specific problems. Topics covered range from portal hypertension to vascular trauma and rehabilitation.
