# Sweet Little Lies (L.A. Candy Book 2)

## Synopsis

After hitting the #1 spot on the New York Times list with her first novel, *L.A. Candy*, TV star Lauren Conrad continues the deliciously entertaining series about an ordinary girl leading an extraordinary life. Full of dishy details about young Hollywood that only an insider can reveal, this entertaining novel shows that lies are only as sweet as the people telling them. Jane Roberts was the average girl next door until she and her best friend, Scarlett Harp, landed their own reality show, *L.A. Candy*. Now the girls have an all-access pass to Hollywood's hottest *L.A. Candy* everything. But there's more to life on camera than just parties and shopping.... When racy photos of Jane are leaked to the press, she finds herself at the center of a tabloid scandal. She turns to her co-star Madison Parker for help, unaware that Madison is scheming behind the scenes. She might be Jane's shoulder to cry on, but does Madison really have Jane's back? Scarlett's working on a scandal of her own. She's fallen for someone who's strictly off-limits *L.A. Candy* which means Scarlett has a big secret to keep... from the *L.A. Candy* cameras, the paparazzi staking out her apartment, even from her best friend. Of course, nothing stays secret for long for the stars of the newest hit TV series, and all this drama couldn't be better for ratings. But can Jane survive another season in the spotlight?

## Customer Reviews

Truly dedicated Lauren Conrad fans who have started the L.A. Candy series will appreciate how Lauren's writing skills seem to improve in this second part of the series. The storyline picks up more, and character situations become a little more interesting. The only critical review I have about Sweet Little Lies, is that each chapter in the beginning reintroduced the characters & their situational theme again (as it was introduced in L.A Candy). It really wasn't necessary & was somewhat annoying. I'm sure that most people who pick up the book a) know that they probably should've read L.A. Candy first, and b) The book really wasn't interesting enough to stand on it's own-- and reintroducing everything was a futile attempt. I would've rather there just be a disclaimer in the front of the book suggesting to read the books in order, than to have have to re-read an overview of each character, when they appear in the second book. A simple solution would to simply put pics of the books on one of the copy-write pages: LA Candy, Sweet Little Lies, Sugar & Spice, and The Fame Game (Coming in April). That way, those who may be reading out of order, have the choice to go back and re-read the first book(s) & those who started w/LA Candy can read through without feeling like they were reading LA Candy all over again. Again, this is probably the book (of the 3 out, so far) that will hook you & get you into the series. It's light reading, but could use a few adjustments.

The book starts a little slow... The novel touches a number of themes such as alcoholism,being with someone who abuses you, betrayal, and hipocrisy being the main theme of the novel. I loved it, it was well written, which actually came as a surprise, really. I couldn't stop reading it, I finished it in two days, and I thought that the themes that covered the novel were smart. I lot of these things actually happen in everyone's life...Brief SummaryJane goes to vacation with Madison and she spends some days with her, when she returns to L.A. and to her apartment, the drama starts again...\*\*\* SPOILERS\*\*\*\*\* Jane decides she makes a wrong move, and that she's guilty,asks for his forgiveness, and returns with him. Madison keeps using Jane, while she feels guilty for using her. She decides it's best to use her, because she wants to be famous instead of making friends. We also see a side of Gaby that we haven't seen before, and Scarlett gets romantic with a guy. \*\*\*\*  
END OF SPOILERS\*\*\*\*

I got the first book of the L.A. Candy series for Christmas and I read it in no time. I could not resist buying "Sweet Little Lies" and I have to say I did like it a lot. It is really easy to read and entertaining.

If you liked the first book, you will like the second. I don't want to give anything away from the story, but I had the feeling it had more of an ending than the first book. I haven't bought the third book yet, but I am sure I will some time soon! I would recommend buying this book, if you liked the first one. It is written in the same style and the storyline develops further.

This was such a good follow up to the first book in the series. The stories are funny and easy to read and they provide just enough drama to keep you entertained. I really enjoy series like this because they are light hearted and good to read anytime.

Since I happened to buy L.A. Candy (the first series of this book), I can't stop reading it. I already have finished this, even though I'm not usually a book person but be waiting for a delivery of the third series.

Most entertaining story!

Tried the first book because I thought it would be interesting since the author actually lived this experience. It ended abruptly, like a season finale, so I had to check out book two. I enjoyed this book. Makes me wonder how much reality there is on reality TV. Again, the abrupt ending.

Her books are always so fun and easy to read. It's a cute book with a familiar message. Definitely worth getting started on her series.
