Customer Reviews

A great guide on how to persuade a women. The author provides a step-by-step on how to unlock any woman's attraction. An easy way on how to approach attractive women without being awkward and a lot more. This book is perfect for those who's currently hopeless around women.

Dating principles to aid in approaching and getting to know her, but what is surprising is the simplicity of the points being emphasized and this means that any enthusiastic guy who is average can get what he wants. The words are not from Mars but the twists involved.

Love this book, its not for sober people though, you wanna be mean clean pu-slayer, get this book it will teach you how to get into her pants, your lover will be all over you with these tips.

As a woman, I took this book out of curiosity. I want to learn "tricks" of a good man, but also to learn to not trust a liar. I admit, by using these tips a man can learn how to conquer almost every woman. Also, you'll find tips and how to start a conversation with a woman who you don't know. This is a book that will help you gain confidence, and without fear start to conquer the woman you love.

There's a lot of advice on attracting women out there. And what most of it misses is that attraction, seduction, intimacy, sex, whatever we want to call it, is an emotional process, not a physical or social one. we can say the "wrong" things and still attract a woman. we can say all of the "right" things and repel her. What matters is the intention, the motivation, the authenticity. To improve our dating life, we must improve our emotional life how we feel about ourselves and others, how we express selves to others. This book contains interesting information. If you are interested in this subject, you would like this book.

If you want to have success to charm women, this book will give you excellent advices. For me this book is helpful, because here I've learned some new ways to impress a woman. I don't want a woman just for one night, so I picked this book because I want to recognize the woman who is worthy of attention and love. Excellent book!

I got this one in a lark, But I can say that though I laughed at some of the tips here, most them can indeed help guys get girls at least to a date, and maybe even further ;)

This is an interesting book on Attracting Women. All of the things, tips and guides that I need to know about Approaching Women, Unlocking Her Attraction and Her Legs are already included and well written inside. Dominic Mann has done a good job in compiling and creating this book. What I love the most from the book is the part "The easiest, sexiest way to go for the kiss." Very informative, useful and well explained. The book is worthy of attention! I highly recommend this book to all.
