The History Of Sweden: (The Greenwood Histories Of The Modern Nations)

Synopsis

For many Americans, Sweden used to conjure images of Viking raiders and settlers. By contrast, contemporary Sweden is one of the world's most advanced nations in terms of politics, social welfare, gender equality, standard of living, technology, the arts, and participation in regional and global developments. Nordstrom traces the history of Sweden, detailing its prehistory and Viking past. This book shows how a country governed for years by a European monarchical system slowly and at times grudgingly changed into the egalitarian, democratic system of today. Starting with an introduction on Sweden's geography, people, and government, Nordstrom examines the political and cultural history of the country in six chapters. Also included are a bibliographical essay, an index, and a biographical section with portraits of more than 50 noteworthy Swedes, making this narrative account is the most up-to-date general history of Sweden available.

Customer Reviews

BYRON NORDSTROM is Professor of History and Scandinavian Studies at Gustavus Adolphus College. He is the author of *Dictionary of Scandinavian History and Scandinavia Since 1500*, as well as articles about Swedish and Swedish-American history.

I liked this History book of Sweden...It covered much material..It was well written..

Unlike the previous comment on this book I have to say I did not find this a dry history at all. While not in the Tom Holland ilk, it is written in a way that addresses the reader. It is informative and clear. Nordstrom has chosen to break up the book into different eras of history and within these write about the different strands, e.g. political, economic, social history. This is a difficult task, especially as he covers over 2000 years of history in about 160 pages. All in all, considering the size constraints, he has done an admirable job. Well done to him, I have enjoyed reading his book. I only wish there were more Swedish history books available on kindle so I could further my interest in it.

I love history. I thought this extremely difficult reading and gave up after 20 or so pages.

Would buy again! I'm very satisfied with this products. it works verywell. Very Fast Shipping & Economical Price! These are wonderful---magical EXACTLY WHAT I WAS HOPING!!! won't go wrong with this So functional, love it.
