This is a really awesome book for non-native speaker, particularly English-speaker. It is plain while useful, as a Chinese teacher for 9 years, I highly recommend this book! Below I'll share some tips for learning Mandarin Chinese: Many people thought it is difficult to learn Mandarin Chinese for English-speakers. However, that notion is not true because Chinese is quite different than English, which is a spelling language! Chinese is a picture language, which means ancient Chinese people draw different pictures as Chinese characters out of everything they saw in the environment, and which makes it advantageous to learn over other languages in a way. It does take time and efforts to learn it well, but what doesn't? Luckily, in learning Chinese, there are at least clues (radicals that are originally drawn from real-life objects) to help in the learning process instead of just memorizing vocabs boringly and endlessly. Therefore, the best way to learn well the language, according to my 10+ of teaching experience, is to learn the radical of the characters first, which by itself usually has a hint from the writing (or drawing) and then forms the character. Book was in condition as listed with mild writing in it and in good outer condition. It also arrived in a timely fashion. As someone who already speaks Mandarin and just likes to have basic books around as reminders, it's perfect. But for any new learner I would not recommend this book system if you also want to know how to write, because it has little to no character use.

The lessons keep repeating the same information. The new words do not always have the corresponding Chinese characters.

excellent condition

Delivery was exceptional. Both book meet my expectation.

This book is very easy to follow and understand. I bought it as part of my Chinese 101 class I was taking. However, even without the class this book will be easy to pick up and understand.
