The teen years is a critical period in the life of a child. This is the time the parent(s) establish a lasting relationship of mutual respect with the child. This book helps you understand the teenage mind, how it works and how and what to pray for concerning your teenager. You become a friend (BFF) and a parent in one to your child with the understanding you get from this book.

Amazing way to center your prayer and focus your attention on your kids. Reading just one page a night sometimes helps me refocus. Great read. Great tool.

I used "Praying the Scriptures for Your Children" for years and have just recently started to use "Praying the Scriptures for Your Teenagers," now that I have one. Both books, by Jodie Berndt are easy to use and packed with God's powerful, encouraging wisdom from the Bible (no, God is not waiting to condemn you and smack you over the head - in fact, the opposite.) It is also full of encouraging, sometimes funny words of wisdom from ordinary moms who aren't afraid to admit that their teens are not perfect - far from it - in order to encourage other moms (and dads.) This is a powerful, enjoyable, life-changing book. Prayer does change lives. Thanks, Jodie!

Very helpful and relatable topics. At the end of each chapter are scripture formed prayers for you to use when praying for your teen.

I have a teen, and was searching for something just like this. Each chapter is short and deals with a topic like character, dating, driving, etc. They each tell a personal story and then end the chapter with several scripture. There are blanks in the verses for you to insert your child's name. Definitely no better way for you to pray for your child. You can turn right to the chapters that pertain to your

child and pray over the problem areas right away. It's very quick and efficient, and well worth every penny! I highly recommend this for every parent! It's great to have on hand and when you find yourself dealing with an issue, you can turn to the book and immediately pray the scriptures. Very well written! Unlike some books, you don't have to read it all the way through to get the benefits. Just turn to the chapter you need.

Highly recommended.

Excellence!

My husband and I have always prayed for our kids. But as they get older, we find sometimes that with the issues they face at school and in social situations we need something more specific that can help us focus on not only the issues themselves but the heart attitudes that are the root. If you feel that you are at a point where you pray the same ole' things, this book is for you. I love the format, and the fact that the author has pages of sample prayers from scripture with a blank so you can fill in the child's name makes it such a powerful, personal thing.
