Flying The Pacific Northwest

Synopsis

Airports of Western Washington and Oregon form the backdrop for flying adventures in the Pacific Northwest. Take the controls of a Piper Arrow, as your personal flight instructor leads you to out-of-the-way spots where recreational aircraft provide the freedom to pursue cherished goals. Hints for cross-county and local flying presented by a 7000-hour FAA certified flight instructor. For armchair pilots and experienced pros, this book is an escape so realistic you'll swear you're airborne.

Customer Reviews

This was a fun book to read. The author takes the reader on a flying experience to many of the small airports around the northwest. I am not a pilot but I was able to experience the joy of flying by reading the book. To a boater who has been to many of these towns by water it was interesting to see that a flight could be done in 15 minutes that takes most of the day by boat. Every private pilot should read this before taking off...

If you need hints on places to fly - the airports in small towns - this is a perfect book. It also gives you some tips on places to visit - and how far from the airports these spots are and whether you can walk/hike there or if land transportation is required. If you are not a flyer it still is interesting just for the notes about the different towns. Just good overall reading, as are all of Wayne's other books.

I enjoyed reading about the various airports in the northwest. Looking forward to exploring them myself someday. Left me wishing the book didn't end.

My husband read the book in a few days and he really enjoyed it very much. He loves to fly!! Thank you!

Great book.
