ISBN-13: 978-0020133407

Product Dimensions: 4.2 x 1 x 7 inches

Shipping Weight: 3.2 ounces (View shipping rates and policies)

Average Customer Review: 3.8 out of 5 stars 43 customer reviews

Best Sellers Rank: #23,823 in Books (See Top 100 in Books) #66 in [Books > Textbooks > Reference > Dictionaries](#) #70 in [Books > Reference > Dictionaries & Thesauruses > Dictionaries](#) #192 in [Books > Reference > Dictionaries & Thesauruses > Foreign Language Dictionaries & Thesauruses](#)

## Customer Reviews

Text: English, Latin --This text refers to an out of print or unavailable edition of this title.

The greatest name in foreign language dictionaries, Cassell's Latin & English Dictionary For fast, easy reference and comprehensive listings, Cassell's Latin & English Dictionary is unbeatable. Thousands of words, phrases, and idioms in scholarly and academic usage are included for maximum reference, along with tables of regular and irregular verbs. Thirty-two pages of brand-new text include: a brief history of Latin, a pronunciation guide for flexible, correct readings, and sections on syllabic divisions, prefixes and suffixes, verb conjugations, declensions, meters, and numerals. A special section on Roman culture includes historic dates, the ancient calendar, weights and measures, and currency exchange. With over 35,000 entries, this handy pocket-sized

dictionary is all you need while studying, translating, or tracking down word meanings.

Cassell's Latin & English Dictionary is legible and easy to read. It provides faster reference for meaning, spelling, and simpler access to complete information. This invaluable volume, backed by the world's foremost authorities, is the best pocket-sized guide to the Latin language available.

Truly deficient. Every other word in any Latin sentence is not included. Pronunciation guide is utterly useless. Can't wait for winter. Firewood!

Easton, PA

The Cassell's Latin dictionary is an excellent choice for anyone wishing to improve their Latin or just wanting to learn or translate a few Latin words. The first section translates Latin into English while the back section translates English into Latin. The print is a little small but not extremely so. As the Latin form therein is circa 100 BCE., much modern technology was lacking in that era, thus there will be no Latin equivalent for many English words. There is no calendar, phrases or other appendixes. The Latin into English section is the most complete. The tome is rather compact and being hard cover, is more sturdy than a paperback edition. It first appeared in 1854 and has been revised many times. This is the perfect book for the Latin scholar.

The study of all most all Romance Languages should begin with Latin. It also is a kind of "reverse engineering" in that how words are structured in syllables and then easier to spell and pronounce! This also leads to a quicker understanding of how to speak and spell some other languages that do not have a Latin Origin. The original meaning of Latin words can be seen in many of the present day languages. However, a word in English should not be assumed to be the same in Latin or another Romance language. An example of this would be the English word of "shame" which in Castellano or Spanish is verguenza, The word for being Pregnant in Spanish is "embarazada" so you must be careful trying to make this word into a Spanish word, especially since it had not the same meaning in Spanish as in English. "Verguenza is also tricky as it can imply that a person may not be without Honor such as in " Es Usted sin verguenza" Or are you without honor". Again, risky question to ask!

Some letters are too thin, some too thick and connect with other letters. Almost unreadable at some places.

:) :) :)

This is a good little Latin dictionary. It contains a variety of words used over the years, mostly focusing on classical Latin but including some from the ecclesiastical period. You can't expect to have every Latin word in here, because it's a very small format. The small format is very convenient, and the binding is good - I have used mine a great deal and the binding has held up very well. I especially like the way they deal with variant forms of words, especially participles. They often list the participial forms of verbs separately (but under the same root verb heading, prefixed by the word "Hence"). Latin participles, of course, are very easily determined from the verbs, so it's not absolutely necessary; but the way they did it is tremendously helpful in two ways: 1. Sometimes the participle has a slightly different meaning or emphasis from the original verb. This allows them to separately distinguish the senses of the participle from the senses of the basic verb; 2. It is a tremendous boon to memorizing vocabulary. Very often, an English word has been taken almost letter-for-letter from the participle, while the original verb has not come across into English. (Example: the verb "ago" doesn't come across in English, but the participial form "agens/agent" does.) Relating the verb to the English is a great help in memorizing vocabulary. My only real problem with this dictionary has to do with the size and printing. At this size, it is very difficult to distinguish the marks they use for long vs. short vowels. It would have been better to never mark short vowels, so you know that if it doesn't have a long vowel mark it's short. Sometimes you're left puzzling over whether a given vowel is long or short, not a good feature to have in a dictionary. Other than this, it's an excellent book, and an excellent value.

Great item. Really compact which is what we needed for school, but some of our letters are rubbed off and not visible.

For my granddaughter who is taking first year Latin. Came quickly, was as advertised, and well supplements the grandfather (Latin Scholar) learning experience.
