Great book, but my cats won't train. I have 15 and I think I confuse them. This is perfect for 1-3 cats maximum. Very very well written though

My cat is a slowly learning and so am I. Book is fun.

Was hoping this would help us keep the cats out of trouble instead of using a spray bottle.

Karen captures the art of how to train your cat. In case you did not know this cats are not easy to train like dogs are mostly.her special training methods take a lot of struggle out of controlling your cat.lets face it cats rule and yes they tend to do what ever they want to do when ever and wherever they want to. with this training method your cat learns to follow your commands and learns pretty fast as well.good luck and I wish you much success in training your cat.

I didn't have any expectation that we could really train our new kitten to come when called, stay off the kitchen counters, sit on a stool waiting politely, etc, but this manual made a believer out of me! The author is an expert and is able to explain even to someone like me how to use a clicker to accomplish theses and other training goals. Simple and clear, I heartily recommend it!

I like this book. Very informative when it comes to training cats or other animals.

So helpful for Clicker Training for my 10 year old kitty.

Received as described & quickly! Thank you!
